*Tammy Kushnir*

A detailed collage artwork by Tammy Kushnir. The central focus is a small, realistic bird, possibly a warbler, perched on a nest. The nest is constructed from a tangle of dry, light-colored grasses and twigs. This nest is placed on a dark, rectangular block that appears to be a piece of wood or metal, which is itself resting on a larger, ornate, and heavily textured metal base. The background is a soft, out-of-focus green. The overall composition is a creative assembly of found objects, including what looks like a piece of rope or twine draped over the nest, and various metal components like bolts and washers visible at the base.
