Apocalypse Explained Emanuel Swedenborg, 2013-11-19 This writing was left unpublished at Swedenborg's death although it had apparently been carefully prepared for publication Except towards the end it is almost exclusively an exposition of the spiritual sense of Scripture Not only is every phrase in the Apocalypse as far as covered separately explained but thousands of passages gathered from all parts of the Word are quoted and expounded These expositions close with the tenth verse of the nineteenth chapter Towards the end extended doctrinal discussions are introduced Both for its exposition of passages of Scripture and for its doctrinal statements this is an exceedingly important and valuable work It is especially instructive in its expositions of the Psalms the Prophets and the Gospels The Apocalypse, Or Book of Revelations, Explained According to the Spiritual Sense; in which are Revealed the Arcana which are There Predicted, and Have Been Hitherto Deeply Concealed, 1815 **The Apocalypse, Or Book of Revelations,**

Françoise Besson,2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare s theatre to ecopoetics from travel writing to detective novels from children s books to novels all literary genres show that literature responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts **International Law Reports: Volume 140** Elihu Lauterpacht,Christopher

Scott,Myles A. Pocta,2012-07-27 It was the fall of 1940 and Americans turned to college football for relief from the turbulent world around them The Depression still had its grip on the nation and across the Atlantic the Battle of Britain raged As war crept closer every day the nations first peacetime draft called Americans to the defense of the country While the great Tom Harmon of Michigan set new standards on the gridiron on other fields black stars struggled for the right to play At Stanford coaching genius Clark Shaughnessy reinvented the game and in the process engineered the greatest turnaround in the history of college football But the team everybody was talking about was Cornell Fueled by the most powerful offense in the country the Big Red dominated the national rankings until on a snowy field at Dartmouth they eked out a win with a touchdown on the last play of the game or did they When it came to light that the touchdown had been scored on a grievous error by the officials Cornell undefeated and in the race for the national championship faced a wrenching decision The 1940 season was one of the most exciting on record and one that taught America about the values that really matter [Conversations with Birds](#) Priyanka Kumar,2022-11-08 An eloquent depiction of how birding engenders a deep love of our ecosystems and a more profound understanding of ourselves Kirkus Reviews starred review Growing up at the feet of the Himalayas in northern India acclaimed filmmaker and novelist Priyanka Kumar took for granted her immersion in a lush natural world After moving to North America as a teenager she found herself

increasingly distanced from nature and discouraged by the civilization she saw contributing to its destruction. It was only in her twenties, living in Los Angeles and working on films, that she began to rediscover her place in the landscape and in the cosmos by way of watching birds. Tracing her movements across the American West, this stirring collection of essays brings the avian world richly to life. Kumar's perspective is not that of a list keeper counting and cataloguing species. Rather, from the mango-colored western tanager that rescues her from a bout of altitude sickness in Sequoia National Park to ancient sandhill cranes in the Bosque del Apache National Wildlife Refuge and from the snowy plovers building shallow nests with bits of shell and grass to the white-breasted nuthatch that regularly visits the apricot tree behind her family's casita in Santa Fe, for Kumar, birds become a portal to a more vivid, enchanted world. Kumar's reflections on these messengers from our distant past and harbingers of our future offer luminous evidence of her suggestion that seeds of transformation lie dormant in all of our hearts. Sometimes it just takes the right bird to awaken us.
