This book walks students through the selection and application of research methods within Tourism Experienced authors introduce the relevant language and theory of key methodologies and then develop them using strategic literature review and the inclusion of international examples which relate directly to tourism Each concept sets the historical and philosophical context of a method alongside the practical application of the technique and provides authoritative and reliable data informative cross referencing detailed discussion of theories and their critics suggestions for further reading The book is a vital resource for all students of tourism leisure and management

**Researching Technology Education**, 2008-01-01

This third volume in the International Technology Education Series provides insights into developments in technology education research in terms of methods and techniques The importance of the book is that it highlights the uniqueness of the area of technology education in terms of content and learning and teaching processes and the need to provide methods and techniques to capture this uniqueness when undertaking research The book comprises research methods and techniques being used by a range of current researchers Each chapter includes details of the method or technique but does so in terms

of a project where it was used This provides important contextual material that will help researchers when developing research projects The book contains research methods and techniques that are new in general as well as ones new to technology education and ones that are variations to existing methods and techniques to make them suitable for use in technology education research

**Handbook of Research Methods for Tourism and Hospitality Management** Robin Nunkoo,2018-07-27 As research in tourism and hospitality reaches maturity a growing number of methodological approaches are being utilized and in addition this knowledge is dispersed across a wide range of journals Consequently there is a broad and multidisciplinary community of tourism and hospitality researchers whom at present need to look widely for support on methods In this volume researchers fulfil a pressing need by clearly presenting methodological issues within tourism and hospitality research alongside particular methods and share their experiences of what works what does not work and where challenges and innovations lie

*Stakeholders Management and Ecotourism* Dimitrios Diamantis,2021-07-05 Stakeholders Management and Ecotourism looks at the thematic area of stakeholder management within the concept of ecotourism It reviews the paradoxes that exist within the stakeholder relationships ranging from building community resilience collaboration aspects measurement grids product development governance matters and managing conflict It highlights through its chapters the diversity of issues as well as their possible solutions This book will be of interest to students practitioners as well as to faculty that do research in these areas The collection of chapters in this book can be used to give a theoretical underpinning to stakeholder management within ecotourism and provide a global applied perspective through the use of the case studies from an intellectual group of academics and practitioners The chapters in this book were originally published as a special issue of the Journal of Ecotourism

**Handbook of Qualitative Research Techniques and Analysis in Entrepreneurship** Helle Neergaard,Claire M. Leitch,2015-10-30 One of the most challenging tasks in the research design process is choosing the most appropriate data collection and analysis technique This Handbook provides a detailed introduction to five qualitative data collection and analysis techniques pertinent to exploring entrepreneurial phenomena Techniques for collecting and analysing data are rarely addressed in detail in published articles In addition the constant development of new tools and refinement of existing ones has meant that researchers often face a confusing range from which to choose The experienced and expert group of contributors to this book provide detailed practical accounts of how to conduct research employing focus groups critical incident technique repertory grids metaphors the constant comparative method and grounded theory This Handbook will become the starting point for any research project Scholars new to entrepreneurship and doctoral students as well as established academics keen to extend their research scope will find this book an invaluable and timely resource

Parents with Mental and/or Substance Use Disorders and their Children, volume III Anja Wittkowski,Joanne Nicholson,Jean Lillian Paul ,Geneviève Piché,2025-07-30 Families living with parental mental and or substance use disorders continue to face considerable biopsychosocial challenges with complex pathways to

mitigating risk enhancing resilience and supporting recovery An ecological life span approach to improving outcomes for all family members infants children adolescents and adults who are parents requires careful consideration of sociocultural conditions life stages and developmental ages alongside family focused needs goals and plans In addition community contexts policy developments and practice innovation play roles in contributing to the wellbeing and functioning of all family members The risk conveyed to all family members by parental mental and or substance use disorders is great Fortunately the opportunities to intervene are plentiful and varied However in many cases interventions are unspecified untested and not brought to scale in regional state or national initiatives We may have the requisite knowledge to inform policy and practice but this evidence may not be applied to effect innovation or change suggesting the need for widespread knowledge translation and dissemination efforts with significant potential to improve public mental health
