Foundations of the Earth H.H. Shugart, 2014-07-08 Where were you when I laid the foundation of the earth God asks Job in the Whirlwind Speech but Job cannot reply This passage which some environmentalists and religious scholars treat as a green creation myth drives H H Shugart s extraordinary investigation in which he uses verses from God s speech to Job to explore the planetary system animal domestication sea level rise evolution biodiversity weather phenomena and climate change Shugart calls attention to the rich resonance between the Earth s natural history and the workings of religious feeling the wisdom of Bible scripture and the arguments of Bible ethicists The

divine questions that frame his study are quintessentially religious and the global changes humans have wrought on the Earth operate in not only the physical chemical and biological spheres but also the spiritual realm Shugart offers a universal framework for recognizing and confronting the global challenges humans now face the relationship between human technology and large scale environmental degradation the effect of invasive species on the integrity of ecosystems the role of humans in generating wide biotic extinctions and the future functioning of our oceans and tides *Recovering Abundance* Andy Stanton-Henry, 2022 *Recovering Abundance* invites readers to join a movement of renewal for small towns and rural communities Andy Stanton Henry explores twelve civic spiritual practices rooted in Jesus's miracle among the multitude demonstrating how it has been embodied in ordinary leaders and how it can be applied today **The Hebrew Bible and Environmental Ethics** Mari Joerstad, 2019-05-23 Engages with the social cosmos of the Bible in which all creatures even inanimate ones are alive and able to interact *Walking in Wonder* George R. Sinclair, 2014-11-13 In ministry as in life we get knocked down Sometimes due to our folly or despair or fatigue or external opposition we stumble and fall How do we get back up again and again and again Resiliency the ability to bounce back is a gift of God Leaders are able to get up and follow the crucified and risen Lord when they are drawn when they are enchanted by the awesome mystery of the triune God Discipleship has never been easy The way staying on the narrow path that leads to abundant life is hard Today no less than the first disciples followers of Christ face an array of challenges not the least of which is disenchantment We had hoped he was the one to redeem Israel Luke 24:21 Seen through an Enlightenment lens disenchantment may be more acute and prevalent in our times but it is not new We walk our own Emmaus Road And when we keep walking when we follow the one who joins us on the Road eyes are opened hearts burn the one standing before us is recognized and we are sustained for the journey This collection of theological essays on ministry is an invitation to run and not be weary to walk and not faint Isa 40:31 by walking in wonder with the wholly other God who is near *Sacred Sense* William P. Brown, 2015 All too often Scripture is read only to find answers to life's perplexing questions to prove a theological point or to formulate doctrine But William Brown argues that if read properly what the Bible does most fundamentally is arouse a sacred sense of life transforming wonder In this book Brown helps readers develop an orientation toward the biblical text that embraces wonder He explores reading strategies and offers fresh readings of seventeen Old and New Testament passages identifying what he finds most central and evocative in the unfolding biblical drama The Bible invites its readers to linger in wide-eyed wonder Brown says and his *Sacred Sense* shows readers how to do just that **Water and Water-Related Phenomena in the Old Testament Wisdom Literature** Kivatsi Jonathan Kavusa, 2019-10-17 Kivatsi Jonathan Kavusa addresses a gap in the field of ecological readings of the Old Testament exploring the theme of water in the Wisdom books including the often ignored deuterocanonical works Kavusa focuses on both the negative and positive potential of water drawing in particular on four of the Earth Bible principles intrinsic worth interconnectedness voice and purpose Kavusa begins with a summary of the extant

studies and literature reviews on water and water related motifs in the Old Testament He then analyses the books of Job Proverbs Ecclesiastes and the Deutero canonical wisdom examining the various references to water as life giving or life threatening entities and expanding upon the themes of water management and sustainability the intrinsic worth of nature and the unpredictable chaotic state of water This volume concludes with several insights for ecological responsibility and valuable wisdom for an eco theological perspective both in Kavusa s African context and with a more universal application

Consider Leviathan Brian R. Doak, 2014-11-01 Theologians and philosophers are turning again to questions of the meaning or non meaning of the natural world for human self understanding Brian R Doak observes that the book of Job more than any other book in the Bible uses metaphors drawn from the natural world especially of plants and animals as raw material for thinking about human suffering Doak argues that Job should be viewed as an anthropological ground zero for the traumatic definition of the post exilic human self in ancient Israel Furthermore the battered shape of the Joban experience should provide a starting point for reconfiguring our thinking about natural theology as a category of intellectual history in the ancient world Doak examines how the development of the human subject is portrayed in the biblical text in either radical continuity or discontinuity with plants and animals Consider Leviathan explores the text at the intersection of anthropology theology and ecology opening up new possibilities for charting the view of nature in the Hebrew Bible
