Abraham Ibn Ezra's Introductions to Astrology Shlomo Sela, 2017-05-22 The present volume offers a critical edition of the Hebrew texts accompanied by English translation and commentary of Reshit okhmah Beginning of Wisdom and Mishpe ei ha Mazzalot Judgments of the Zodiacal Signs by Abraham Ibn Ezra ca 1089 ca 1161 The first the summa and by far the longest of his astrological works the target of the most cross references from the rest of that corpus and the most influential enjoyed the widest circulation among Jews in the Middle Ages and after The second by contrast is the most obscure It is never referred to elsewhere by its author and is the only work for which Ibn Ezra's authorship must be substantiated Reshit okhmah and Mishpe ei ha Mazzalot were written in order to explain concepts common to the various branches of astrology that Ibn Ezra addressed elsewhere and to elucidate the worldview that underlies astrology These two treatises are the richest and most varied with regard to the astrological information they present Reshit okhmah and Mishpe ei ha Mazzalot also exemplify the close collaboration between astronomy and astrology in medieval science and are the two components of Ibn Ezra's astrological corpus with the most extensive comprehensive and significant astronomical content A critical edition with English translation of Reshit okhmah was published in 1998 by Epstein Sela has not only aspired to improve it but also supplied a commentary to render the text more comprehensible Sela's mission is successfully accomplished for both treatises This multifarious book is another important contribution to a deeper understanding of the life and work of one of the most important medieval Jewish polymaths Ilana Wartenberg Universit t Bern in Journal for the History of Astronomy 50 1 2019
