The Crusader Strategy Steve Tibble, 2020-08-04 A new look at the crusaders which shows how they pursued long term plans and clear strategic goals Medieval states and particularly crusader societies often have been considered brutish and culturally isolated It seems unlikely that they could develop strategy in any meaningful sense However the crusaders were actually highly organized in their thinking and their decision making was rarely random In this lively account Steve Tibble draws on a rich array of primary sources to reassess events on the ground and patterns of behavior over time He shows how from aggressive castle building to implementing a series of invasions of Egypt crusader leaders tenaciously pursued long term plans and devoted single minded attention to clear strategic goals Crusader states were permanently on the brink of destruction resources were scarce and the penalties for failure severe Intuitive strategic thinking Tibble argues was a necessity not a luxury
