Pershing and the American Expeditionary Forces in World War I, 1917-1919 John T. Greenwood,2022-12-20 General of the Armies John J Pershing 1860 1948 had a long and distinguished military career but he is most famous for leading the American Expeditionary Forces in World War I He published a memoir My Experiences in the World War and has been the subject of numerous biographies but the literature regarding this towering figure and his enormous role in the First World War deserves to be expanded to include a collection of his wartime correspondence Meticulously edited by John T Greenwood volume 2 of John J Pershing and the American Expeditionary Forces in World War I 1917 1919 covers the period of October 1 through December 31 1917 During this time Pershing focused his efforts on working with the French Ministry of War the General Staff and the field Army on training and equipping the AEF s few available combat divisions for frontline service Russia s defection from the coalition and the surprising Italian defeat at Caporetto in October rocked the Allied ranks and this volume addresses the

creation of the Supreme War Council and the House's American War Mission bodies that reexamined the Entente's military and diplomatic strategy and ultimately cemented the alliance. The correspondence also reveals how the House Mission revived the divisive issue of amalgamating arriving American troops into existing British and French combat divisions something that Pershing utterly opposed and saw as a threat to the AEF. The dispute never resolved and irritated British prime minister Lloyd George and French premier Georges Clemenceau so much that both would try to engineer Pershing's removal in the following year. Extracts from the large volume of rarely referenced cablegrams represent an important contribution to Pershing's wartime story. **Gas World**, 1916 **Engineering; an Illustrated Weekly Journal**, 1917

**Industrial Arts Index**, 1923 *Rhubarb* Clifford M. Foust, 2014-07-14 An Asian plant with mysterious cathartic powers medicinal rhubarb spurred European trade expeditions and obsessive scientific inquiry from the Renaissance until the twentieth century. Rarely however had there been a plant that so thoroughly frustrated Europeans' efforts to acquire it and to master its special botanical and chemical properties. Here Clifford Foust presents the remarkable efforts of the explorers, traders, botanists, gardeners, physicians, and pharmacists who tried to adapt rhubarb for convenient use in Europe. His is an intriguing tale of how humans and their institutions have been affected by natural realities they do not entirely comprehend. Readers interested in the history of medicine, pharmaceuticals, botany, or horticulture will be fascinated by this once perplexing plant highly valued by physicians for its cathartic properties. Rhubarb resisted revealing its active chemical principles, had many widely varying species, and did not breed true by seed. This history includes sections on the geographic and economic importance of rhubarb which explain how the plant became a major state monopoly for Russia and an important commodity for the East India companies and a discussion of rhubarb's emergence as an international culinary craze during the nineteenth and twentieth centuries.
