

Symbolism in The Scarlet Ibis by James Hurst

The Scarlet Ibis: Written Response

In the story "The Scarlet Ibis" by James Hurst uses symbolism to tell his story and gives it a deeper meaning. James Hurst uses the Roman Candle and the weather to emphasize and illustrate how the characters feel in the story.

The first symbol is the roman candle and it symbolizes how the characters feel frightened and it was also a foreshadowing of Doodle's death. For example, the tree in front of them shattered "...by a bolt of lightning." (pg. 3) This basically means that the character probably feels a sudden rush of emotions. Doodle, obviously, would feel frightened because the lightning ripped up a whole tree in front of him and he is scared of being hurt. But for Doodle's brother, the narrator, he felt a sense of cruelty towards his brother and he suddenly thought about leaving Doodle behind, which he did. And from seeing the lightning rip the tree apart, it gives the readers a clue about how Doodle may have died later on.

The second symbol is the weather which represents how the situations are good or bad. To show, when they were walking home together and the "...deafening thunder haddled..." and the narrator left Doodle behind. This event and symbol correlate to how bad and good the situation was. The relationship of the brothers were breaking and they were fighting, the weather happened to go bad because it helped display the tone of the story at the moment. Or also, when the narrator successfully taught Doodle how to stand, the sun was shining and it was a beautiful day. The weather can be used to help the reader understand the tone of the story.

Transforming Talk into Text—Argument Writing, Inquiry, and Discussion, Grades 6-12 Thomas M. McCann, 2014-05-23 Author

Thomas McCann invites readers to rethink their approach to teaching writing by capitalizing on students' instinctive desire to talk. Drawing on extensive classroom research, he shows teachers how to craft class discussions that build students' skills of analysis, problem solving, and argumentation as a means of improving student writing. McCann demonstrates how authentic discussions immerse learners in practices that become important when they write. Chapters feature portraits of teachers at work, including transcripts that reveal patterns of talk across a set of lessons. Interviews with the teachers and samples of student writing afford readers a deeper understanding of process. Students also report on how classroom discussions supported their effort to produce persuasive argument-driven essays. Book Features: A focus on the thinking behind the practice, as opposed to a collection of lesson ideas; Connections to important elements from the Common Core State Standards, especially arguments writing; Examples of students at work with examples of the writing that emerges from their discussions; Portraits of skilled teachers as they promote inquiry and sequence and facilitate discussions; Appendices with problem-based scenarios, interview questions for students and teachers, samples of debatable cases in the news, and more. In this important book, Tom McCann has given us not only the admonition to change but the details about what effective change must be and what it looks like: evidence that it works effectively and details about how to bring it to pass.

From the Foreword by George Hillocks Jr., Professor Emeritus, Department of English, University of Chicago: For a professional book to have an impact on the field, it needs to address a perceived need. Writing arguments for Common Core performance assessments is a HUGE need right now that this book helps address.

Writing Borderless Histories of Art is an aspirational, historical, and critical project that offers a fundamental rethinking of the relationship of humans to the rest of nature. Social justice, indigeneity, abuses of power, and the environmental crisis are the burning issues of today. A transcultural approach calls for abandoning structures of domination that are built into the academic disciplines, regardless of the scale or extent of interpretation. Drawing upon writings from a wide range of fields, Claire Farago argues that Art History can play a role in advancing the public's interconnectedness with the planetary life support system that so urgently needs to be restored. Studying the discourse on art at the intersection of global capitalism, environmental degradation, and human subjection over four centuries, Writing Borderless Histories of Art advocates ontologies that do not distinguish between the sentience of humans and other animals and go beyond the dualistic metaphysics of the nature/culture divide. While this book is addressed to a wide audience, its multilayered approach also reaches out to art historians for whom chronology, canons, and style are structures fundamental to the organization and operation of the discipline. The book is neither a history of ideas nor a search for the origins of art history but a recognition of
