**One-Touch Search Banks** — let you search preset frequencies in separate ham radio, police/fire/emergency, aircraft, weather, and marine banks, to make it easy to locate specific types of calls.

**Liquid-Crystal Display** — makes it easy to view and change programming information. The display backlight also makes the scanner easy to read in low-light situations.

**Tune** — lets you tune for new and unlisted frequencies starting from a specified frequency.

**Priority Channel** — lets you program a frequency into the priority channel. As the scanner scans, it checks the priority channel every 2 seconds so you do not miss transmissions on that channel.
