*Parental Patrol* Anthony P. Montanari,2019-09-19 *Parental Patrol* Identifying and Correcting Adolescent Behavior Before It Occurs By Anthony P Montanari This is a book that is long overdue

In the juvenile justice system we've developed systems of adjudication and rehabilitation in clinical psychology we focus on treatment protocols and healing strategies. Nevertheless, both structures have run on parallel tracks, seldom intersecting despite their common mission of helping juveniles transition into successful, responsible, joyful adults. Until now. In *Parental Patrol*, Detective Montanari provides a framework for understanding and avoiding the damaging developmental path that often leads young people to behaviors that result in their involvement in both the juvenile justice and mental health systems. For the concerned parent, that path is described with the insight and proficiency of an experienced police officer and the sensitivity and compassion of an effective therapist through twenty aspects of learning that must be mastered if positive, problem-free emotional growth and development are to occur. The usefulness of Montanari's work goes well beyond being a guidebook for parents. It would also be relevant and appropriate as a training tool for police and therapists seeking to bridge the gap between their professions, providing context and common ground to inform the important work that they do.

Nicholas A. Duva, Ph.D.      **Stories of the Liberation Struggles in South Africa** Prof. Thabo Israel Pudi, 2014-12-12

*The Stories of the Liberation Struggles in South Africa: Mpumalanga Province* is a book about the struggles of the South African people—black, Indian, and colored—when they defied and resisted oppression and apartheid from the white South African government in the pre-1994 era. To ensure dominance over other race groups and the entrenchment of oppression and apartheid, the white South African government applied many tactics. These included dividing people along racial lines, such as securing separate living areas for whites, black, Coloureds, and Indians. The government further divided the black people into ethnic groups such as Zulu, Xhosa, and Pedi. This was to ensure that the black people were confined to what was called homelands or Bantustans. The apartheid government also promulgated laws that were aimed at discriminating and undermining the freedom and integrity of the black people, such as the Group Areas Act and others. There was also a state of emergencies, which were often declared to ensure that the iron fist of apartheid and oppression remained clenched. During these states of emergencies, many black people died, were maimed, or brutally injured, and some also disappeared forever. When the apartheid government went further to enforce that Afrikaans language should be the official language at all schools, then they found that they had committed the greatest error. The students opposed it. Violence erupted from the Soweto schools and it spread to all other townships. The stories in Part 1 and Part 2 of the books are about the liberation stories of the struggles in South Africa, Mpumalanga province, which touches, amongst others, on the toils, the trials, the troubles, and the perils that the youths, especially, had to undergo during that time. Many youths skipped the country to do military training in order to force the apartheid government to go to the negotiation table for freedom and democracy for all. Others waged battles within the country. At many instances, they fought against the might of the South African police, armed with rubber bullets, tear gas, and live ammunition, whilst only armed with stones and dustbin lids as their shields. Many were arrested. Many died in detention. Many died, and there was funeral after funeral when the youths went out to bury their dead. Sometimes when they return

from the funerals they would suffer other casualties This was a vicious circle of funeral after funeral but the youths called the young lions never gave up There are of course other instances when the youth fought the establishment of homelands or the third force elements impimpis or askaris which worked with the system There are of course other cases of youths who also fought with local business people because these were perceived to be working with their enemies the white government Sad to say the stories herein also reveal some orgies of the youths fighting and killing people especially the elderly who were perceived to be witches All these stories are true experiences from the contributors **Words on The Page** John B.
