Dear Ms. Smith,

I am writing in reference to Armando Harmon. We have been neighbors for the past three years, and I have always known him to be an ambitious and highly motivated person. I believe that his self-starting tendencies and strong vision make him an ideal candidate for the Account Coordinator position at ABC, Inc.

When I met Armando, he had just graduated from New York University and was planning to pursue a Master of Business Administration. We initially connected at a community event, and I could immediately see that he is a driven individual with substantial potential. Over the years, we have volunteered for several neighborhood initiatives, which gave me the opportunity to see his leadership and teamwork skills firsthand. He recently led a community fundraiser, which involved coordinating a project plan, managing a team of 10 people and generating record-breaking contributions.

In the past three years, Armando has also obtained his MBA, completed a professional certification and earned a year of work experience at Lawson Financial. During his time at Lawson, he has progressed from an intern to a junior associate role. His business acumen, strong self-motivation and leadership capabilities make him highly qualified for the Account Coordinator role at ABC, Inc. Given his experience, qualifications and constant improvement, I believe he will be a top performer at your company.

Please let me know if you have any further questions about Armando's qualifications as I would be glad to provide more insight. I can be reached by phone at 4320216-9946 or email at hannah.lee@email.com.

Best regards,

Hannah Lee

Cognitive Psychology Lawrence W. Barsalou, 2014-02-25 This text presents the basic concepts of modern cognitive psychology in a succinct and accessible manner Empirical results theoretical developments and current issues are woven around basic concepts to produce coherent accounts of research areas Barsalou's primary goal is to equip readers with a conceptual vocabulary that acquaints them with the general approach of cognitive psychology and allows them to follow more technical discussions elsewhere In meeting this goal he discusses the traditional work central to modern thinking and reviews current work relevant to cognitive science Besides focusing on research and theory in cognitive psychology Barsalou also addresses its fundamental assumptions Because the cognitive approach to psychology is somewhat subtle often misunderstood and sometimes controversial it is essential for a text on cognitive psychology to address the assumptions that underlie it Therefore three of the eleven chapters address the meta assumptions that govern research and theory in cognitive psychology These meta chapters provide a deeper understanding of the content areas and a clearer vision of what cognitive psychologists are trying to accomplish The remaining eight content chapters cover the central topics in cognitive psychology This book will be of value to a variety of audiences Ideal for researchers in computer science linguistics philosophy anthropology and neuroscience who wish to acquaint themselves with cognitive psychology it may also be used as a text for courses in cognitive science and cognitive psychology Lay readers who wish to learn about the cognitive approach to scientific psychology will also find the volume useful
