Education and Learning Jane Mellanby, Katy Theobald, 2014-05-12 Education and Learning offers an accessible introduction to the most recent evidence based research into teaching learning and our education system Presents a wide range references for both seminal and contemporary research into learning and teaching Examines the evidence around topical issues such as the impact of Academies and Free Schools on student attainment and the strong international performance of other countries Looks at evidence based differences in the attainment of students from different socioeconomic and ethnic backgrounds and explores the strong international performance of Finnish and East Asian students Provides accessible explanations of key studies that are supplemented with real life case examples **Analysing**

Underachievement in Schools Emma Smith, 2005-06-09 Underachievement in school is one of the most widely used terms in education today As a discourse it has been responsible for influencing government policy staffroom discussions as well as the pages of academic journals and the TES It is also a subject which raises questions about what we expect from a fair and equitable education system This book provides a critical analysis of two sides of the underachievement debate at each of the three levels of focus international the UK and the individual On the one hand it will consider the crisis account of falling standards and failing pupils and on the other present an alternative account which urges a re evaluation of the underachievement debate in order to consider who might be underachieving and why **Children, Schools, And**

Inequality Doris R Entwisle, 2018-03-05 Educational sociologists have paid relatively little attention to children in middle childhood ages 6 to 12 whereas developmental psychologists have emphasized factors internal to the child much more than the social contexts in explaining children s development Children Schools and Inequality redresses that imbalance It examines elementary school outcomes e g test scores grades retention rates in light of the socioeconomic variation in schools and neighborhoods the organizational patterns across elementary schools and the ways in which family structure intersects with children s school performance Adding data from the Baltimore Beginning School Study to information culled from the fields of sociology child development and education this book suggests why the gap between the school achievement of poor children and those who are better off has been so difficult to close Doris Entwistle Karl Alexander and Linda Olson show why the first grade transition how children negotiate entry into full time schooling is a crucial period They also show that events over that time have repercussions that echo throughout children s entire school careers Currently the only study of this life transition to cover a comprehensive sample and to suggest straightforward remedies for urban schools Children Schools and Inequality can inform educators practitioners and policymakers as well as researchers in the sociology of education and child development
