Robert Musil et la question anthropologique

Florence Vatan, 1999-12-31T23:00:00+01:00 La création humaine est capable aussi bien de pratiquer l'anthropophagie que de critiquer la Critique de la raison pure Essais p 141 Comment penser l'homme sans avoir postulé sur le mode des anthropologies philosophiques traditionnelles une nature humaine dotée d'attributs définis Tel est le problème soulevé par Robert Musil dans son œuvre essayiste et romanesque La seule vérité anthropologique que l'on puisse noncer est négative l'homme ne possède pas de forme propre sinon celles que lui donne la réalité socioculturelle constituant son horizon de pensée et d'expérience Au regard de cet amorphisme constitutif l'idéal d'un sujet autonome et souverain se révèle illusoire Musil pose les fondements théoriques de son intuition en mobilisant différentes perspectives scientifiques l'ethnologie le calcul des probabilités et en premier lieu la psychologie de la forme Gestaltpsychologie Son roman L'Homme sans qualités devient le site expérimental d'un dialogue avec ces différents savoirs dans le cadre d'une enquête sur les formes possibles de l'expérience humaine La signification politique d'un tel projet devient manifeste la lumière du contexte idéologique de l'entre-deux guerres L'anthropologie musilienne oppose une fin de non recevoir aux théories raciales et aux morphologies culturelles ainsi qu'à leur définition normative des types humains On voit se dessiner travers cette tude de l'œuvre musilienne sous l'angle inédit de la question anthropologique la figure d'un crivain remarquablement attentif aux controverses idéologiques ainsi qu'à l'évolution politique de l'Europe des années vingt et trente La réponse de Musil ce qu'il percevait comme une crise de l'homme européen se fonde sur une critique littéraire nourrie d'une vaste culture scientifique
