American Pie Peter Reinhart, 2010-10-27 Master bread baker Peter Reinhart follows the origins of pizza from Italy to the States capturing the stories behind the greatest artisanal pizzas of the Old World and the New. Beginning his journey in Genoa, Reinhart scours the countryside in search of the fabled focaccia col formaggio. He next heads to Rome to sample the famed seven-foot long pizza al taglio and then to Naples for the archetypal pizza napoletana. Back in America, the hunt resumes in the unlikely locale of Phoenix, Arizona, where Chris Bianco of Pizzeria Bianco has convinced many that his pie sets the new standard in the country. The pizza mecca of New Haven, grilled pizza in Providence, the deep-dish pies of Chicago, California-style pizza in San Francisco and Los Angeles—these are just a few of the tasty attractions on Reinhart's epic tour. Returning to the kitchen, Reinhart gives a master class on pizza-making techniques and provides more than 60 recipes for doughs, sauces, and toppings and the pizzas that bring them all together. His insatiable curiosity and gift for storytelling make *American Pie* essential reading for those who aspire to make great pizza at home as well as for anyone who enjoys the thrill of the hunt.

Why Diets Fail (Because You're Addicted to Sugar) Nicole M. Avena, PhD, John R. Talbott, 2013-12-31 This revolutionary eating plan reveals definitive proof that sugar is addictive and presents the first science-based program to cut out the sugar, stop the cravings that cause most diets to eventually fail, and lose weight permanently. If you're like most people, you've tried a few or maybe many different diets without success. The truth is, most diets work for a while, but there's usually a point at which the dietary restrictions become too difficult to maintain. Why? Because whether you're following a low-carb, paleo, gluten-free, or even an all-liquid green juice diet, the addictive nature of sugar causes cravings to take over and sabotage your diet of the moment. In *Why Diets Fail*, Dr. Nicole M. Avena and John R. Talbott reveal definitive proof that sugar is addictive and present the first science-based program to stop the cravings and lose weight permanently. A neuroscientist and food addiction expert, Dr. Avena has conducted groundbreaking research showing that sugar triggers the same responses in the brain as addictive drugs like cocaine, nicotine, and alcohol. And like those other substances, the more sugar you eat, the more you need to get the same pleasurable feelings. No wonder your last diet didn't stick. Avena and Talbott's eight-step plan walks you through the process of going sugar-free and surviving the make-or-break withdrawal period: those first few weeks when your body feels the absence of its favorite sweetener most acutely. An easy-to-use Sugar Equivalency Table developed by Talbott lists the amount of sugar in hundreds of common foods so you know precisely what to eat and what to avoid. And when it comes to what you can eat, you have a lot to choose from. In fact, you'll probably eat more on this diet than you normally do while continuing to lose weight. This science-based program is the diet to end all diets. It will help you break the yo-yo dieting cycle, end those maddening sugar cravings, and develop a new
