

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Zelinka, 2020-03-14. This

proceedings volume presents new scientific works of the research workers and experts from the field of Wood Science. Fire. It looks into the properties of various tree species across the continents affecting the fire technical properties of wood and wood based materials, its modifications, fire retardant methods and other technological processes that have an impact on wood ignition and burning. The results of these findings have a direct impact on Building Construction and Design, describing the fire safety of wooden buildings, mainly large and multi-story ones. The results of these experiments and findings may be applied or are directly implemented into Fire Science Hazard Control Building Safety, which makes the application of wood and wood materials in buildings possible while maintaining strict fire regulations. One part of the contributions focuses on the symbiosis of the material and the fire fighting technologies. Wood burning has its own specific features; therefore, the fire protection technologies need to be updated regularly. It also includes the issue of the intervention of fire fighting and rescue teams in the fires of wooden buildings. Presentations deal with the issue of forest fires influenced by the climate changes, relief fuel models based on the type and the age of the forest stand.
