The World's Paper Trade Review, 1893 *Parallel Problem Solving from Nature - PPSN VIII* Xin Yao, Edmund Burke, Jose A. Lozano, Jim Smith, Juan J. Merelo-Guervós, John A. Bullinaria, Jonathan Rowe, Peter Tino, Ata Kabán, Hans-Paul Schwefel, 2004-12-16 We are very pleased to present this LNCS volume the proceedings of the 8th International Conference on Parallel Problem Solving from Nature (PPSN VIII). PPSN is one of the most respected and highly regarded conference series in evolutionary computation and natural computing. This biennial event was first held in Dortmund in 1990 and then in Brussels 1992, Jerusalem 1994, Berlin 1996, Amsterdam 1998, Paris 2000, and Granada 2002. PPSN VIII continues to be the conference of choice by researchers all over the world who value its high quality. We received a record 358 paper submissions this year. After an extensive peer review process involving more than 1100 reviews, the programme committee selected the top 119 papers for inclusion in this volume and of course for presentation at the conference. This represents an acceptance rate of 33%. Please note that review reports with scores only but no textual comments were not considered in the chairs ranking decisions. The papers included in this volume cover a wide range of topics from evolutionary computation to swarm intelligence and from bio-inspired computing to real world applications. They represent some of the latest and best research in evolutionary and natural computation. Following the PPSN tradition, all posters at PPSN VIII were represented as posters. There were 7 sessions, each session consisting of around 17 papers. For each session, we covered as wide a range of topics as possible so that participants with different interests would find some relevant papers at every session.
