

Bullying in Schools: The Real-Life Effects and Strategies for Prevention

I'm sure we have all known a bully. Maybe you have even been bullied yourself or have witnessed someone else getting bullied. Today, it may seem so common to hear of kids teasing or making fun of each other that it may not always be taken as seriously as it should be. Let's take a look at the real-life effects Bullying has on its victims. Addressing the Scope of the Issue Extensive research shows that Bullying at school is increasing. Since Bullying has negative consequences for the general school climate and for the rights of students to learn in a safe environment without fear, and since Bullying can have lifelong negative effects, schools need to understand the wide scope of the problem, and they need to figure out how to discourage Bullying and to encourage positive behavior. "Various reports and studies have established that approximately 15 percent of students are either bullied regularly or initiators of bullying behavior," says author Ron Banks in the article Bullying in Schools. This statistic helps us to understand how often Bullying truly occurs in schools today. We see more statistics in the article Bully-Proof, Your School by Colleen Newquist. Newquist states, "As many as 7 percent of eighth-grade students in the United States stay home at least once a month because of bullies." Not only are these poor students being bullied, but they also resort to skipping school and missing out on their education just to avoid conflict. Victims of Bullying may also develop "stress-related illnesses" such as chronic fear, stomachaches, and headaches, as well as depression and low self-esteem. Lifelong Consequences These problems can have severe effects on someone's life and may follow them into adulthood. Michael Lemonick, in "The Bully Blight," reports that Bullying has negative consequences for bullies. He says, "Bullies are four times as likely as the average child to have engaged in criminal behavior by age 24." They also grow up lacking social, coping, and negotiating skills and are more likely to engage in substance abuse. Lemonick also develops the dangers of Bullying with his story about LaShanda Timble. "LaShanda Timble is what society considers a goth. She wears black lipstick and listens to rock bands rather than rap music like other kids her age. Kids at her school tease her by claiming she will cast a spell on them and calling her ugly and crazy," says Lemonick as he tells her story. In this situation, LaShanda is being teased for being herself and looking the way she wants to look. There's nothing wrong with being different. Deconstructing the Bully A definition of a bully has several parts. One part of the definition of Bullying is to describe the behavior of the bullies. They typically seem to get some sort of satisfaction from inflicting harm on others, have little empathy, are generally defiant or argumentative towards adults, have little anxiety, tend to break the rules, and maybe antisocial. Bullies tend to display certain traits or behavior; this may help you identify a bully. A second part of the definition of Bullying is a description of the victims of bullies. Victims are usually anxious, insecure, cautious, and suffer from low self-esteem, rarely defending themselves against Bullying. They may lack social skills and friends, meaning they are often alone. This makes them easy targets for bullies. They also tend to be physically weaker than their peers. These are traits a bully victim typically

The Psychology of School Bullying Peter K. Smith, 2018-09-21 Why do children get involved with bullying Does cyberbullying differ from traditional bullying How can bullying at school be prevented The Psychology of School Bullying explores what bullying is and what factors lead to children playing roles as bullies victims defenders bystanders or even some combination of these The book examines proactive strategies to reduce the likelihood of bullying happening in school but also looks at what action the school could take if bullying incidents do occur As bullying can have such far reaching consequences and sometimes tragic outcomes it is vital to grasp how and why it happens and The Psychology of School Bullying shows how improved knowledge and understanding can lead to effective interventions

School Bullying and Mental Health Helen Cowie, Carrie-Anne Myers, 2017-07-20 Bullying amongst young people is a serious and pervasive problem and recent rapid advances in electronic communication technologies have provided even more tools for bullies to exploit School Bullying and Mental Health collates current research evidence and theoretical perspectives about school bullying in one comprehensive volume identifying the nature and extent of bullying and cyberbullying at school as well as its impact on children and young people s emotional health and well being There are many negative consequences of bullying and children and young people who have been victimised often suffer long term psychological problems such as increased levels of anxiety depressive symptoms social isolation loneliness and suicidal ideation Perpetrators of bullying also have a heightened risk of experiencing problems such as anxiety and depression as well as eating disorders and antisocial behaviour Founded on rigorous academic research this

important book tackles the negative consequences of bullying and bullying culture itself by examining the social and cultural contexts that perpetuate such behaviour from childhood through adolescence and potentially into adulthood. Containing contributions from an international team of authors, this book explores current interventions to prevent and reduce school bullying and to alleviate its negative effects on the mental health of children and young people. In depth discussion of the profound implications of this research for researchers, practitioners and policymakers makes this book essential reading for those interested in bullying culture and the mental health and well being of children and adolescents. *Bullying in Schools* Paul Langan, 2011-01-01. Now in a newly revised edition, *Bullying in Schools* is a powerful and practical resource for students, parents and educators. Respectful and empathetic, the book examines the problem of bullying and works to combat it. New material includes a timely essay about cyberbullying and an enhanced section focusing on internet safety. Suited to a wide range of instructional approaches, *Bullying in Schools* can serve as a class text or as a guidebook for individual students.

Dealing with Bullying in Schools Mona O'Moore, Stephen James Minton, 2004-11-15. Designed to work as a training manual, this book was developed from training courses run by the authors on dealing with bullying in schools. *Stop the Bullying* Ken Rigby, 2003-05-01. *Stop the Bullying* is a comprehensive handbook with practical advice for educators and parents who want to know how to stop bullying. *Stop the Bullying* will assist teachers in finding out what is really happening in their school and develop a sound and well supported anti bullying policy. Teachers and parents will find out how to deal appropriately and constructively with children who bully others and support and help those children who are victimised by peers at school. It also encourages teacher parent cooperation in stopping the bullying. New material includes Lesson material for teachers working with classes of students for example in promoting more positive and effective bystander behaviour. Instructional material on how staff in a school can more effectively examine and discuss their own views on how bullying among students may be addressed. Advice relating to bullying involving adults in the school community. Extensive references to updated research and accessible resources. Blackline masters that facilitate the work of teams of educators addressing the problem of bullying in their schools. *Bullying* Great Britain: Parliament: House of Commons: Education and Skills Committee, 2007-03-27. There has been an increasing awareness over the past few decades of bullying and the effect it has on the educational and social achievements of children and young people. The Committee's report examines the progress that has been made to address this problem since the introduction of the Don't Suffer in Silence pack in 1994, the barriers that prevent schools from tackling bullying effectively, issues of prejudice driven bullying including SEN related homophobic and faith based bullying and cyber bullying. The report finds that defining what bullying is and identifying instances of bullying is the first potential barrier to successfully tackling the problem. Teachers and staff, pupils and parents should all be aware of their school's definition of bullying and how this affects their own behaviour, with the attitude and engagement of head teachers vital to tackling bullying. The focus of anti bullying guidance should be tackling bullying behaviour and making it

clear that such behaviour is not acceptable rather than attempting to change the behaviour of the victim The DfES should issue new guidance to local authorities and schools on when the use of exclusion is appropriate The lack of accurate reliable data on bullying is another barrier to more effective anti bullying work and the Government should commission a long term study of a number of schools looking at both general trends in bullying and also the effectiveness of different approaches in different circumstances The report also recommends that the Government needs to foster a culture where schools are encouraged to be open about incidents of bullying have effective ways of dealing with bullying when it occurs and provide support the victims of bullying rather than fearing reporting incidents of bullying will damage their reputation
