

## Expectations for Short Papers: Leadership & Ethics

### Introduction:

The purpose of the introduction is to introduce the reader to the central theme(s) of your paper. An effective introduction goes from general to more specific information regarding the subject(s) you will be covering in your paper. Then, gradually narrowing down the subject to a specific purpose statement. It should be concise, and therefore, the reader should have no doubt as to the topic of your paper. Because this is a short paper, the introduction must be no more than one to two paragraphs in length. (1 to 2-paragraph maximum) Note: If you do write one paragraph for your introduction, make sure it is thorough.

### Tips for the Introduction Section:

- Keep it general. In other words, save the specific analysis of the information you will be discussing, for the actual analysis section. Remember, the introduction provides a broad overview of what will be discussed.
- Please do not use direct quotes in the introduction. All concepts or theories should be paraphrased, this helps to create a stronger introduction written by you, versus taking information verbatim.
- Make sure whatever you write in your introduction is elaborated on in the analysis section of your paper. Everything needs to connect.

### Purpose Statement:

After the introduction, you would then gradually narrow down the focus to a specific purpose statement. A purpose statement, is essentially just like a thesis statement, except more specific and direct. It provides the paper with a clear scope, direction and purpose. The purpose statement should be concise, and therefore, the reader should have no doubt as to the topic of

## **Papers On Leadership:**

*Transformational Leadership Working Papers* Richard Couto, Gill Hickman, Bruce J. Avolio, Bernard Bass, Jane Howell, Walt Ulmer, 1997-10-01      **The Leadership of Organizational Change** Mark Hughes, 2015-10-05 Understanding both leadership and change have been recurrent and popular themes within the business management and organization studies literature. However, our understanding of leadership and organizational change in combination is far more limited. The Leadership of Organizational Change offers a critical review of the evolution of leadership and organizational change for the past thirty-five years, taking stock of what we know, identifying what we do not know, and establishing how the study of the leadership of change should advance. In the late seventies and early eighties, as interest in managing and leading change was fuelled by the competitive threat of Asia in general and Japan in particular, as perceived by western businesses and governments, Burns (1978) writing in his landmark book *Leadership* at this time referred to an intellectual crisis. The crisis of leadership today is the mediocrity or irresponsibility of so many of the men and women in power, but leadership rarely rises to the full need for it. The fundamental crisis underlying mediocrity is intellectual. If we know all too much about our leaders, we know far too little about leadership. While the study of managing change has benefitted from sustained critical scrutiny, particularly in the last decade, it is believed that this is to have been at the expense of critical scrutiny of leading change. The Leadership of Organizational Change critically reviews how the study of leading change has advanced since 1978 and the crisis of intellectual mediocrity.      An Analytical Study of Papers on Leaders and Leadership Lorraine Alba Walworth, 1939

Young, Gary M. Crow, 2016-08-19 The *Handbook of Research on the Education of School Leaders* brings together empirical research on leadership preparation and development to provide a comprehensive overview and synthesis of what we know about preparing school leaders today. With contributions from the field's foremost scholars, this new edition investigates the methodological foundations of leadership preparation research, reviews the pedagogical and curricular features of preparation programs, and presents valuable insights into the demographic, economic, and political factors affecting school leaders. This volume both mirrors the first edition's macro-level approach to leadership preparation and presents the most up-to-date research in the field. Updates to this edition cover recent state and federal government efforts to improve leadership in education, new challenges for the field, and significant gaps and critical questions for framing research, evaluating and improving the education of school leaders. Sponsored by the University Council of Educational Administration (UCEA), this handbook is an essential resource for students and scholars of educational leadership, as well as practitioners and policymakers.

by the literature which dominated by dyadic and romanticized views mostly presents the roles as enacted by separate individuals facing each other To advance our understanding of connecting leaders the editor proposes to shift our focus on leadership in three ways to unpack the interconnectedness and interplay of leader and follower identities to investigate the tensions arising from the co enactment and how these can be overcome to widen the way in which we study leadership through new configurations e.g leadership triads and ontologies and finally to consider the similarities between leading and following The book chapters are organized to mirror these areas of exploration Understanding leadership from a perspective that acknowledges that many individuals in organizations are not just leaders or followers but both democratizes the way we theorize leadership and moves us further away from the temptation to romanticize it *The Future of Religious Leadership* Alon Goshen-Gottstein, 2018-08-08 The chapters collected in this book prepared by a think tank of the Elijah Interfaith Academy address the subject of religious leadership The subject is of broad relevance in the training of religious leaders and in the practice of religious leadership As such it is also germane to religious thought where reflections on religious leadership occupy an important place What does it mean to be a religious leader in today's world To what degree are the challenges that confront religious leadership today the same perennial challenges that have arrested the attention of the faithful and their leaders for generations and to what degree do we encounter challenges today that are unique to our day and age One dimension is surely unique and that is the very ability to explore these issues from an interreligious perspective and to consider challenges opportunities and strategies across religious traditions Studying the theme across six faith traditions Christianity Islam Judaism Sikhism Hinduism and Buddhism *The Future of Religious Leadership* World Religions in Conversation recognizes the common challenges to present day religious leadership Contributors Awet Andemicael Timothy J Gianotti Alon Goshen Gottstein Anantanand Rambachan Maria Reis Habito Meir Sender Balwant Singh Dhillon Miroslav Volf *ICMLG2013 Proceedings of the International Conference on Management, Leadership and Governance*, 2013
