EMC/Paradigm Publishing, **Legal and Ethical Standards in Corporate Insolvency** Elizabeth Streten, 2024-06-17

Recent financial crisis and the global financial impacts of the COVID 19 pandemic have brought renewed interest to the regulation and practice of corporate insolvency and restructuring Modernisation of the insolvency profession and the regulation of its practitioners is a contemporary concern and recent years have seen significant reforms of insolvency law The success of such reforms can be enhanced through a clear understanding of difficulties faced by the insolvency profession in achieving successful restructuring and insolvency outcomes and through the determination of effective solutions to those difficulties However there is limited empirical data to inform the day to day practice of insolvency nor the difficulties experienced by insolvency practitioners in pursuing insolvency and restructuring solutions This book addresses this absence of data and understanding examining the role and practice of corporate insolvency practitioners and exploring the challenges that they encounter Offering an empirical study together with a comparative analysis of the experiences of practitioners around the world this book facilitates a greater understanding of corporate insolvency practice confronting a misunderstanding of and under confidence in corporate insolvency practitioners making it key reading for academics practitioners and regulators working in the area of corporate insolvency **Space Syntax** Laura Vaughan, John Peponis, Ruth Conroy Dalton, 2025-04-30 Professor Bill Hillier spent most of his career at The Bartlett University College London where he founded and developed with a team of colleagues an original research programme that set the study of architecture on a firm scientific basis His transformational way of thinking about buildings and cities influenced generations of scholars researchers and practitioners within the built environment disciplines and way beyond in fields ranging from archaeology and biology to physics and zoology *Space Syntax Selected papers* by Bill Hillier provides a canon of works that reflects the progression of Hillier s ideas from the early publications of the 1970s to his most recent work published before his death in 2019 This selection of influential works ranges from his papers on architecture as a professional and research discipline through to his later papers that present a theory of the spatial structure of the city and its social functions By bringing together writing from across his career span of half a century with specially commissioned introductions by a wide range of international experts in the field we are able to contextualise and show the range and evolution of Hillier s key ideas
