

imagine what a terrible matter will happen if there are no trees. Without trees, the world will turn into lifeless bare ground. The most shocking point is that we randomly cut down these tested friends for our better and more comfortable living. But now it is time to be considerate in filling the gap created by cutting down trees. So, planting more trees must be our only vision and mission. Mainly July and August are the two effective months of planting trees. Due to the rainy season during this time, we do not need to think of watering and extra caring. Generally, in an open place, trees can be planted. Notably, roadside, mountain slopes, homestead, and educational institutions are the perfect places for planting trees. Above all, it is foregone that our life on this earth will be endangered without trees. So, by raising public awareness and field campaigns, the government and the mass people must be kind and strict in planting trees devotedly.

### **Tree Plantation Paragraph for Class 9**

Tree plantation means planting trees more and more. This is a program taken by the government to save our environment from the devastation. Trees are beneficial and necessary for the environment. Trees give us oxygen, without which we can't survive. But this vital aspect of our environment is destroyed by the careless acts of the people. We should plant more trees to maintain harmony between man and nature and save our environment. June and July are the best times to plant trees. Trees can be produced on the banks of ponds, rivers, on both sides of highways and railways, on the banks of dams, etc. The more we plant trees, the more we do well to ourselves. The government and the public should work together to materialize the tree plantation program.
