**Publics** Zahid R. Brain,2014-07-22 Despite being widely studied on both undergraduate and postgraduate courses the writing of Sylvia Plath has been relatively neglected in relation to the attention given to her life and what drove her to suicide Tracy Brain aims to remedy this by introducing completely new approaches to Plath s writing taking the studies away from the familiar concentration to reveal that Plath as a writer was concerned with a much wider range of important cultural and political topics Unlike most of the existing literary criticism it shifts the focus away from biographical readings and encompasses the

full range of Plath's poetry, prose, journals and letters using a variety of critical methods      **Year Book** Carnegie Endowment for International Peace, 1924      Yearbook Carnegie Endowment for International Peace, 1924      Annual Report Carnegie Endowment for International Peace, 1924      The Complete David Bowie (Revised and Updated 2016 Edition) Nicholas Pegg, 2016-12-06 The biggest edition yet expanded and updated with 35 000 words of new material. Critically acclaimed in its previous editions, *The Complete David Bowie* is widely recognized as the foremost source of analysis and information on every facet of Bowie's career. The A-Z of songs and the day-by-day dateline are the most complete ever published. From the 11-year-old's skiffle performance at the 18th Bromley Scouts Summer Camp in 1958 to the emergence of the legendary lost album *Toy* in 2011 to his passing in January 2016, *The Complete David Bowie* discusses and dissects every last development in rock's most fascinating career. The Albums: detailed production history and analysis of every album from 1967 to the present day. The Songs: hundreds of individual entries reveal the facts and anecdotes behind not just the famous recordings but also the most obscure of unreleased rarities from *Absolute Beginners* to *Ziggy Stardust* from Abdulmajid to Zion. The Tours: set lists and histories of every live show. The Actor: a complete guide to Bowie's career on stage and screen. Plus the videos, the BBC radio sessions, the paintings, the Internet and much more.      *Travel, Modernism and Modernity* Robert Burden, 2016-03-09 Focusing on the significance of travel in Joseph Conrad, E. M. Forster, D. H. Lawrence, Henry James and Edith Wharton, Robert Burden shows how travel enabled a new consciousness of mobility and borders during the modernist period. For these authors, Burden suggests, travel becomes a narrative paradigm and dominant trope by which they explore questions of identity and otherness related to deep-seated concerns with the crisis of national cultural identity. He pays particular attention to the important distinction between travel and tourism at the same time that he attends to the slippage between seeing and sightseeing, between the local character and the stereotype, between art and kitsch and between older and newer ways of storytelling in the representational crisis of modernism. Burden argues that the greater awareness of cultural difference that characterizes both the travel writing and fiction of these expatriate writers became a defining feature of literary modernism, resulting in a consciousness of cultural difference that challenged the ethnographic project of empire.

Guattari Beyond Deleuze Carlos A. Segovia, 2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy?*, Guattari is to be acknowledged a philosopher in his own right, independently from Deleuze. Furthermore, it looks back and forth beyond *Anti-Oedipus* and contends that Guattari's major writings gradually supplement deterritorialization with determinability. Accordingly, it offers a new interpretation of the nuanced development of Guattari's philosophical thought which it proposes to define as constructivist rather than post-structuralist. Additionally, it explores the innovative responses that Guattari's philosophy supplies to various contemporary philosophical debates like those on accelerationism, indeterminacy, compossibility and worlding. Finally, it examines the

differences that upon a careful cross reading of their earliest texts including *The Anti Oedipus Papers* and *Difference and Repetition* must be drawn between Guattari's constructivism and Deleuze's sacrificial philosophy
