Tim Urban,2023-02-21 From the creator of the wildly popular blog Wait But Why a fun and fascinating deep dive into what
the hell is going on in our strange unprecedented modern times Between 2013 and 2016 Tim Urban became one of the world
s most popular bloggers writing dozens of viral long form articles about everything from AI to colonizing Mars to
procrastination Then he turned his attention to a new topic the society around him Why was everything such a mess Why was
everyone acting like such a baby When did things get so tribal Why do humans do this stuff This massive topic sent Tim
tumbling down his deepest rabbit hole yet through mountains of history evolutionary psychology political theory
neuroscience and modern day political movements as he tried to figure out the answer to a simple question What s our
problem Six years later he emerged from the hole holding this book What s Our Problem is a deep and expansive analysis of
our modern times in the classic style of Wait But Why packed with original concepts sticky metaphors and 300 drawings The
book provides an entirely new framework and language for thinking and talking about today s complex world Instead of
focusing on the usual left center right horizontal political axis which is all about what we think the book introduces a vertical
axis that explores how we think as individuals and as groups Readers will find themselves on a delightful and fascinating
journey that will ultimately change the way they see the world around them Anyway he wanted to say a lot more about all of
this but there was a word limit on this book description so just go read the book **Christian Advocate and Journal and
