Out of Paper Katie Anania, 2024-06-11 A dynamic look at how artists used paper to radically redefine the relationship between the body and its surroundings and to propose new conceptions of ecology From sketches created inside pants pockets to paper strewn performances that took cues from protests and riots the work on paper in the 1960s acted as a mobile flexible connective tissue between the body and the world around it In this book Katie Anania reveals how artists Carolee Schneemann William Anastasi Richard Tuttle Robert Morris and Charles White harnessed this historically intimate medium during a period in which Americans were becoming urgently concerned with identity consumer culture the overreach of state power and the rapidly deteriorating natural world Her reexamination of drawing shows how the omnipresence of paper facilitated artists critiques of dominant systems from modern throwaway culture to bureaucracy to colonial violence Engaging a wide range of actions such as recycling recording cutting planning and erasing

Anania offers fresh insights into paper's role not merely as a preparatory medium but one essential to the histories of performance, minimalist, conceptual and land art. *Out of Paper* uses materiality studies, social history and feminist art historical methods to situate paper as a major conduit for thought in the postwar United States. ***An Anthropology of Things*** Ikuya Tokoro, Kaori Kawai, 2018.
