Paradise For Two:

Jewish, Christian, and Muslim Travel Experiences Susanne Luther, Pieter B. Hartog, Clare E. Wilde, 2023-10-04 Travel and pilgrimage have become central research topics in recent years. Some archaeologists and historians have applied globalization theories to ancient intercultural connections. Classicists have rediscovered travel as a literary topic in Greek and Roman writing. Scholars of early Judaism, Christianity, and Islam have been rethinking long familiar pilgrimage practices in new interdisciplinary contexts. This volume contributes to this flourishing field of study in two ways. First, the focus of its contributions is on experiences of travel. Our main question is: How did travelers in the ancient world experience and make sense of their journeys, real or imaginary, and of the places they visited? Second, by treating Jewish, Christian, and Islamic experiences together, this volume develops a longue d'ur e perspective on the ways in which travel experiences across these three traditions resembled each other. By focusing on experiences of travel, we hope to foster interaction between the study of ancient travel in the humanities and that of broader human experience in the social sciences. Computer Chess Compendium D. LEVY, 2013-06-29 For many years I have been interested in computer chess and have collected almost every learned paper and article on the subject that I could find. My files are now quite large and a considerable amount of time, effort, and expense has been required to build up this collection. I have often thought how difficult it must be for many computer chess enthusiasts to acquire copies of articles that they see referenced in some other work. Unless one has access to a good reference library, the task is almost impossible. I therefore decided to try to make available in one volume as many as possible of the most interesting and important articles and papers ever written on the subject. Such a selection is naturally somewhat subjective, and I hope that I will not offend authors whose works have been excluded. In particular, I have decided to exclude any material which has appeared in the Journal of the International Computer Chess Association (ICCA) or in its precursor, the ICCA Newsletter. The reason is simply that the ICCA itself is in the process of compiling a compendium containing the most important material published in those sources. For further information on ICCA membership and publications, the reader is invited to contact Professor H. J. van den Herik or Dr. Jonathan Schaeffer, University of Limburg, Computing Science Department, Department of Computer Science, University of Alberta, 6200 MD Maastricht, Edmonton, Netherlands, Alberta, Canada T6G 2H1. *New York Magazine*, 1991-10-28 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country.
