BiCYCLE CLUB 2014 5 BiCYCLE CLUB, 2014-03-20 BC 2 OK MTB *House of Commons - Education Committee: School partnerships and Cooperation - HC 269* Great Britain: Parliament: House of Commons: Education Committee, 2013-11-06 The Government wants schools to take more responsibility for themselves and each other in delivering a true self improving school system It wants schools to look not to local authorities for expertise but to each other We have no problem with that vision and think the wide range of models and structures already in place is a strength and proof of vitality We support moves to give schools more freedom to innovate but we argue that the creation of a self improving system needs a degree of coordination and strong incentives to encourage schools to look beyond their own school gate Otherwise there is a danger that many schools will operate in isolation rather than in cooperation Academy chains are generally performing well but raise particular questions and need specific solutions We recommend that it should be made clear how academies can leave chains either with or without mutual consent We also call for the Department for Education to monitor more effectively the extent to which convertor academies meet the expectation that they should support other schools The report calls for amongst other recommendations that Ofsted to be given the powers to inspect academy chains and for Government to formalise procedures for schools to leave academy chains by mutual consent and to set out how an outstanding school can leave a chain against the wishes of the chain management **Self-Improving Schools: The Journey to Excellence** Roy Blatchford, 2016-03-15 Can a school led system truly become self improving What is the difference between good and great schools Who should inspect and regulate How should local authorities change Is the landscape ahead one of all schools in partnerships The English schools system is at a crossroads This landmark collection of essays brings together some of the country's leading education thinkers and practitioners Their polemic is intended to help teachers school leaders governors researchers and policy makers think deeply about future directions As a Minister I would ask which organisation was responsible for resolving a particular problem in education only to be told Don't worry Minister it's no longer the DfE That is now a responsibility of the School Led System They will be delivering it Often when you probed a little deeper you discovered that the school led system was nowhere near as well formed and ever present as some Ministers and senior civil servants liked to think David Laws This is a time of great possibility Teachers are attempting to do extraordinary things If we had more courage to shape our schools around what we believe to be a good education then we could make life so much better not just for teachers but for the students we serve Peter Hyman For a self improving system to be truly successful and to have a significant impact it requires the highest performing schools to be outward reaching and to establish deep partnerships Rachel Macfarlane A self improving school system must not become a self regarding or worse a self protecting school system The role of external challenge is key to this Russell Hobby **Kraks blaa bog**, 2014
