**The Routledge Handbook of Placemaking** Cara Courage, Tom Borup, Maria Rosario Jackson, Kylie Legge, Anita Mckeown, Louise Platt, Jason Schupbach, 2020-12-30 This Handbook is the first to explore the emergent field of placemaking in terms of the recent research teaching and learning and practice agenda for the next few years Offering valuable theoretical and practical insights from the leading scholars and practitioners in the field it provides cutting edge interdisciplinary research on the placemaking sector Placemaking has seen a paradigmatic shift in urban design planning and policy to engage the community voice This Handbook examines the development of placemaking its emerging theories and its future directions The book is structured in seven distinct sections curated by experts in the areas concerned

Section One provides a glimpse at the history and key theories of placemaking and its interpretations by different community sectors. Section Two studies the transformative potential of placemaking practice through case studies on different places, methodologies, and theoretical frameworks. It also reveals placemaking's potential to nurture a holistic community engagement, social justice, and human-centric urban environments. Section Three looks at the politics of placemaking to consider who is included and who is excluded from its practice and if the concept of placemaking needs to be reconstructed. Section Four deals with the scales and scopes of art-based placemaking, moving from the city to the neighborhood and further to the individual practice. It juxtaposes the voice of the practitioner and professional alongside that of the researcher and academic. Section Five tackles the socio-economic and environmental placemaking issues deemed pertinent to emerge more sustainable placemaking practices. Section Six emphasizes placemaking's intersection with urban design and planning sectors and includes case studies of generative planning practice. The final seventh section draws on the expertise of placemakers, researchers, and evaluators to present the key questions, today's new methods, and approaches to evaluation of placemaking in related fields and notions for the future of evaluation practices. Each section opens with an introduction to help the reader navigate the text. This organization of the book considers the sectors that operate alongside the core placemaking practice. This seminal Handbook offers a timely contribution and international perspectives for the growing field of placemaking. It will be of interest to academics and students of placemaking, urban design, urban planning, and policy, architecture, geography, cultural studies, and the arts.

*The Routledge Handbook on Greening High-Density Cities* Peng Du, Kheir Al-Kodmany, Mir M. Ali, 2024-06-17  
This new handbook provides a platform to bring together multidisciplinary researchers focusing on greening high-density agglomerations from three perspectives: climate change, social implications, and people's health. Written by leading scholars and experts, the chapters aim to summarize the state of the art and produce a reference book for policymakers, practitioners, academics, and researchers to study design and build high-density cities by integrating green spaces. The topics covered in the book include but are not limited to Urban Heat Island, Green Space, and Carbon Sequestration; Green Space and Social Equity; Green Space and Public Health; Biophilic Cities; Urban Agriculture; Vertical Farms; Urban Farming Technologies; Nature and Biodiversity; Nature and Health; Biophilic Design; Green Infrastructure; Urban Revitalization; Post-Covid Cities; Smart and Resilient Cities; Tall Buildings; and Sustainable Vertical Cities.

Teaching Urban and Regional Planning Andrea I. Frank, 2021-02-26  
This innovative book makes the case for training future planners in new and creative ways as coordinators, enablers, and facilitators. An international range of teaching case studies offer distinctive ideas for the future of planning education along with practical

tips to assist in adapting pedagogical approaches to various institutional settings Unique contributions from educational scholars contextualise the emergent planning education approaches in contemporary pedagogical debates

**Preservation Education** Barry L. Stiefel, Jeremy C. Wells, 2014-09-02 Over the past twenty years there has been a fundamental shift in the institutional organization of historic preservation education Historic preservation is the most recent arrival in the collection of built environment disciplines and therefore lacks the pedagogical depth and breadth found in allied endeavors such as architecture and planning As the first degree programs in preservation only date to the 1970s and the first doctoral programs to the 1990s new faculty are confronted with pedagogical challenges that are unique to this relatively nascent field Based on a conference that included educators from around the world Barry L Stiefel and Jeremy C Wells now present a collection that seeks to address fundamental issues of preservation pedagogy outcome based education and assessment and global issues of authenticity and significance in historic preservation The editors argue that the subject of the analysis has shifted from What is the best way to fix a historic building to What are the best ways for teaching people how to preserve historic properties and why according to the various standards that have been established This important reconsideration of the state of the field in historic preservation education will appeal to a broad audience across numerous disciplines

**The Planner's Use of Information** Hemalata C. Dandekar, 2019-08-28 For more than 35 years planners have depended on The Planner's Use of Information to help them address their information needs While the ability to manage complex information skillfully remains central to the practice of planning the variety and quantity of information have ballooned in the last two decades The methods of accessing and handling information although often ultimately easier and faster require new technical savvy At the same time planners themselves and the constituents they serve have changed This completely revised and updated third edition of this popular book will serve the new generation of planners who work in a world where social media cell phones community embedded development and a changing population have revolutionized the practice of planning Edited again by Hemalata C Dandekar with chapters by leading experts in data collection analysis presentation and management The Planner's Use of Information empowers practitioners to use and address the impacts of twenty first century technologies The book offers a range of methods for addressing many kinds of information needs in myriad situations It is an invaluable day to day resource for practicing planners and an ideal classroom text for courses in planning communication and analytical methods Illustrations real life examples cartoons exercises bibliographies and lists of online resources enrich the text

*The Art of Classic Planning* Nir Haim Buras, 2020-01-28 An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term Nearly everything we treasure in the world's most beautiful cities was built over a century ago Cities like Prague Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the

last hundred years not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from Modernism and reactions to it The errors of urban design over the last century are too great not to question The solutions being offered today sustainability walkability smart and green technologies hint at what has been lost and what may be regained but they remain piecemeal and superficial In The Art of Classic Planning architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers The Art of Classic Planning restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L'Enfant's Washington Haussmann's Paris and Burnham's Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities

*Planning and Design for Sustainable Urban Mobility* Un-Habitat, 2013-10-30 Urban transport systems worldwide are faced by a multitude of challenges Among the most visible of these are the traffic gridlocks experienced on city roads and highways all over the world The prescribed solution to transport problems in most cities has thus been to build more infrastructures for cars with a limited number of cities improving public transport systems in a sustainable manner However a number of challenges faced by urban transport systems such as greenhouse gas emissions noise and air pollution and road traffic accidents do not necessarily get solved by the construction of new infrastructure Planning and Design for Sustainable Urban Mobility argues that the development of sustainable urban transport systems requires a conceptual leap The purpose of transportation and

mobility is to gain access to destinations activities services and goods Thus access is the ultimate objective of transportation As a result urban planning and design should focus on how to bring people and places together by creating cities that focus on accessibility rather than simply increasing the length of urban transport infrastructure or increasing the movement of people or goods Urban form and the functionality of the city are therefore a major focus of this report which highlights the importance of integrated land use and transport planning This new report of the United Nations Human Settlements Programme UN Habitat the world s leading authority on urban issues provides some thought provoking insights and policy recommendations on how to plan and design sustainable urban mobility systems The Global Report on Human Settlements is the most authoritative and up to date global assessment of human settlements conditions and trends Preceding issues of the report have addressed such topics as Cities in a Globalizing World The Challenge of Slums Financing Urban Shelter Enhancing Urban Safety and Security Planning Sustainable Cities and Cities and Climate Change
