III. Hypothesis, Research Questions, or Goals of the Project

The overarching goal of the project is to determine what factors influence the collection, outcomes, and change over time of Course-Instructor Survey (CIS) ratings. The research questions to be addressed are:

- 1) What is the average response rate across campus?
- 2) Who is not filling out the CIS form by professor rank, course size, college of course, required vs. elective, lab vs. lecture, and semester?
- 3) What mediates overall course grade with overall instructor held constant?
- 4) Does lecturer faculty receive higher responses than other faculty positions?
- 5) How are course workload, probable grade in the course, and overall course rating related?
- 6) Are there changes over time in course and course instructor ratings (tenured and non-tenured)?
- 7) Does course length influence CIS scores?
