## Other Comments about League Website

30 Comments received: equally divided between Pros and Cons

### Pros:

- ▶ I like the site's ability to maintain historical records and documentation. Important for the League to maintain the site. Usage will grow as we all become more technologically savvy and as the League continues to grow and develop.
- ▶ Updates from Catherine could be posted to the website v. e-mail communication. Usage would probably increase if members knew the League president was using it more to communicate important information.
- ▶ VLSSE website is a valuable tool. When members start utilizing it more, its benefits will increase and improve.

Ferguson,2010-05-17 Profiles jobs in the internet industry such as computer and video game designers digital agents information brokers internet security specialists and more **Current Practices and Future Plans of Public Library Webmasters** Primary Research Group,2005 The new report from Primary Research Group is based on interviews with webmasters from the San Jose Public Library the Salt Lake City Public Library the Alexandria Library the Los Angeles Public Library the Charlotte Mecklenburg County Public Library the Houston Public Library the Carnegie Library of Pittsburgh the Colorado Virtual Library and the Boston Public Library A free sample chapter is available for download A few of the report s conclusions are summarized below **CONTENT MANAGEMENT**Libraries take widely varying approaches to the issue of how should control the website and who should be empowered to add content to the site Some libraries prefer to centralize access in the hands of just a few librarians who act as gatekeepers to the website Others prefer to empower as many

librarians as possible to contribute to the site and to oversee their own contributions to the site To achieve this some libraries have purchased off the shelf content management systems while others have developed in house content management systems that allow non technical librarians to function independent of the need for technical help

### THE IMPACT OF CASCADING STYLE SHEETS

CSS Cascading style sheet that allow librarians to edit entire sites or subsets of site with one click of the mouse have become popular ways to introduce some uniformity and lower the labor demand of editing public library websites Cascading style sheets are important because librarians are finding more and more reasons to add more and more content to their sites Public library websites have often quickly become unwieldy monsters that voraciously eat up librarian time Correcting and editing these beasts by hand is dangerous and cascading style sheets allow proper measured feeding without loss of limb

### MOST POPULAR PAGES

Some of the most popular pages on the public library websites surveyed were the events calendar basic library info page database gateways and children s and teen pages

### STAFFING

Relative to the importance of the library website to the overall success of the library the size of most library web staffs when such staffs exist is quite small Usually one to three individuals run the website and they often have other responsibilities The strategy that most have pursued to overcome their small staffs is to devolve responsibility for content to subject specialist librarians and to empower them to be able to edit the portions of the website for which they are responsible

### UNIQUE CONTENT

Most librarians interviewed stressed the need to develop unique content that would draw traffic to the website Among the type of content mentioned were interactive storytelling and educational games reading lists and contests book reviews by librarians posted online subject guides and events calendars

### CHILDREN S TEEN SERVICES

One of the most vibrant areas for website development has been services for children and teens This age group grew up with access to the world wide web and it is truly the only generation for which web use and communication is as natural as turning on the television for most Americans Libraries have responded with books clubs personalized spaces interactive stories and games and other features aimed at this audience Nonetheless many libraries have just scraped the surface of their potential in this area We like what the Charlotte Mecklenburg County Public Library has done in this area developing unique content focused marketing and web teams to create a unique site for Charlotte area children

### SPECIAL COLLECTIONS

Many libraries have plans to digitize their special collections or at the very least to digitize finding aids for those collections and increase access to them through the library website We expect that this will soon become a major area of public library investment and a challenge for website administrators who must devise access schemes to digitized resources
