Proficiency in these skills, especially marketing, can help your practice succeed and allow you to genuinely connect with your communities. Written by a healthcare professional for healthcare professionals, *Community Connections* is the first in a series of books designed to bridge the gap between what you're taught in school and how to market a practice in the real world. Whether you're a veteran in the healthcare industry or just getting started, *Community Connections* contains the valuable advice and practical marketing ideas you need from the reasons most healthcare practices don't market to gaining a deeper understanding of yourself and your community at large. Discover how implementing easy and affordable marketing activities can expand the success of your healthcare practice.

The Fattening of America Eric A. Finkelstein, Laurie Zuckerman, 2010-12-29 A guide to how America became the fattest nation and how the food industry and the government keep it that way. In *The Fattening of America*, renowned health economist Eric Finkelstein along with business writer Laurie Zuckerman reveal how the US economy has become the driving force behind our expanding waistlines. Blending theory, research, and engaging personal anecdotes, the authors discuss how declining food costs, especially for high-calorie, low-nutrient foods, and an increasing usage of technology, which make Americans more sedentary, has essentially led us to eat more calories than we burn off. Praise for *The Fattening of America* Finkelstein and Zuckerman show that our entire society profits from making people fat and then either keeping them fat or making them thin again. When you understand how these powerful forces work, you can do a better job of resisting them and staying healthy. Jack Challem, bestselling author of *The Food Mood Solution* and *Stop Prediabetes Now*. Everyone who eats food in America must read this book. It is a comprehensive guide to how we've become the fattest nation on the planet and how the food industry in cahoots with the government makes us one of the least healthy nations. Fred Pescatore, MD, MPH, CCN, author of *The Hamptons Diet*. The authors have done an excellent job talking to mainstream America about obesity. It brings together all of the latest research and packages it in a way that is engaging for the average person. I very much enjoyed the book and would recommend it for anyone interested in obesity. Well done. James O. Hill, PhD, Professor of Pediatrics and Medicine at the University of Colorado Health Sciences
