Galbraith, Hans-Wolfgang Henn, Mogens Niss, 2007-12-05 Among the themes that have been central to mathematics education during the last 30 years are those of mathematical modelling and applications of mathematics to extra mathematical fields More generally we refer to these as relations between mathematics and the extra mathematical world some times also called the real world or preferably according to Henry Poincaré the rest of the world That applications and modelling have been important themes in mathematics education can be inferred from the wealth of literature on these topics including material generated from a multitude of national and international conferences In particular let us mention firstly the ICMEs the International Congresses on Mathematical Education with their regular working or topic groups and lectures on applications and modelling and secondly the series of ICTMAs the International Conferences on the Teaching of Mathematical Modelling and Applications which have been held biennially since 1983 Their Proceedings and Survey Lectures have addressed the state of the art at the relevant time and contain many examples studies conceptual contributions and resources involving relations between the real world and mathematics for all levels of the educational system In curricula and textbooks we find today many more references to real world phenomena and problems than say twenty years ago Journal of Arabic and Religious Studies ,1991 **Does Religious Education Work?** James C. Conroy, David Lundie, Tony Gallagher, Karen Wenell, Kevin Lowden, 2013-12-19 The most comprehensive empirical and conceptual analysis of the state of religious education in British schools currently available Proceedings of the 1st Alma Ata International Conference on Education (AAICE 2023) Kana Safrina Rouzi, Yusinta Dwi Ariyani, Esthi Nawangsasi, Endi Rochaendi, Ika Tri Susilowati, An-Nisa Apriani, Martalia Ardiyaningrum, 2025-06-24 This is an open access book Disruption becomes a social phenomenon that occurs in society In the disruption era education will face many challenges One of the challenge in education is how to improve students skills in global competition in society 5.0 Competition does not only involve competition between humans and humans but also competition between humans and a robotic based work system by utilizing artificial intelligence Many experts predict that there will be around 130 professions from new sectors that will present and will replace old professions However some of universities are disrupted by various kinds of technological innovations in education There are several disruptions that can be categorized in the world of education namely Disruption of Generations Disruption of Technology and Disruption of the Industrial Revolution 4.0 The current generation tends to be different from the previous generation because the current generation prefers collaborative learning through interactive learning media compared to learning that is carried out in class Technological disruption is related to the existence of technological innovations e.g open educational resources in the education such as Ruangguru Chem Academies and learning gaming that

change the educational setting Classrooms may not be needed too much teachers as facilitators and learning places more emphasis on collaborative and social activities The disruption of the industrial revolution 4.0 disrupts existing activities because they are no longer relevant and have been replaced by artificial intelligence or robots Not only repetitive work but also analytical work will also be disrupted such as analysts consultants lawyers accountants and translators Advances in machine learning big data analytics and artificial intelligence internet of things virtual reality and augmented reality will shift from jobs that are repetitive jobs to creative jobs Education needs to respond and adapt to this phenomenon because after all a shift in globalization is a necessity FITK Alma Ata University and SEAMEO Regional Open Learning Centre will convene the 1st International Collaboration Conference on Education The theme of this conference is Future Education in the Disruption Era This conference will declare by virtually when all experts policy makers educators and other stakeholders to share best practice and discuss on how we as global citizens response to the education challenge in the disruption era
