Simple and Useful: a Guide to Web Design - eBook Jerrold Warren Maddox, 1753 Can HTML be styled well enough and simply enough so that anyone can write for the web using just a text editor and share that work with anyone else regardless of the platform they are using, the speed of their connection, and any disabilities they may have? The answer is yes. I also believe that those of us who are focused on teaching and learning rather than branding and sales need to make everything as simple and small as we can so we don't burden the user who has limited bandwidth and a slow connection. It starts with the basics: what needs to be included in your markup so your work will scale to all devices, from phones to being projected on to a screen and be available to the disabled, physically, intellectually, and emotionally.
