*Channeling Violence* James T. Hamilton,2021-04-13 If it bleeds it leads The phrase captures television news directors famed preference for opening newscasts with the most violent stories they can find And what is true for news is often true for entertainment programming where violence is used as a product to attract both viewers and sponsors In this book James Hamilton presents the first major theoretical and empirical examination of the market for television violence Hamilton approaches television violence in the same way that other economists approach the problem of pollution that is as an example of market failure He argues that television violence like pollution generates negative externalities defined as costs borne by others than those involved in the production activity Broadcasters seeking to attract viewers may not fully bear the costs to society of their violent programming if those costs include such factors as increased levels of aggression and crime in society Hamilton goes on to say that the comparison to pollution remains relevant when considering how to deal with the problem Approaches devised to control violent programming such as restricting it to certain times and rating programs according to the violence they contain have parallels in zoning and education policies designed to protect the environment Hamilton examines in detail the microstructure of incentives that operate at every level of television broadcasting from programming and advertising to viewer behavior so that remedies can be devised to reduce violent programming without restricting broadcasters right to compete      Maximum PC ,2005 Maximum PC is the magazine that every computer fanatic PC gamer or content creator must read Each and every issue is packed with punishing product reviews insightful and innovative how to stories and the illuminating technical articles that enthusiasts crave      **Media Bias** Wm.
