investigation a timeline is constructed and with the aid of smart devices providing data investigators might be able to capture much more specific data points than in a traditional crime. However, collecting this data can often be a challenge as it frequently doesn't live on the device itself but rather in the provider's cloud platform. If you can get the data off the device you'll have to employ one of a variety of methods given the diverse nature of IoT devices: hardware, software, and firmware. So while robust and insightful data is available, acquiring it is no small undertaking.

**Digital Forensics and Internet of Things** encompasses state-of-the-art research and standards concerning IoT forensics and traditional digital forensics. Compares and contrasts IoT forensic techniques with those of traditional digital forensics standards. Identifies the driving factors of the slow maturation of IoT forensic standards and possible solutions. Applies recommended standards gathered from IoT forensic literature in hands-on experiments to test their effectiveness across multiple IoT devices. Provides educated recommendations on developing and establishing IoT forensic standards research and areas that merit further study.

**Audience:** Researchers and scientists in forensic sciences, computer sciences, electronics engineering, embedded systems, information technology.

**Methodologies and Applications for Analytical and Physical Chemistry** A. K. Haghi, Sabu Thomas, Sukanchan

Palit, Priyanka Main, 2018-07-17 This volume presents an up-to-date review of modern materials and concepts, issues, and recent advances in analytical and physical chemistry. Distinguished scientists and engineers from key institutions worldwide have contributed chapters that provide a deep analysis of their particular subjects. The chapters discuss the composition and properties of complex materials as well as mixtures, processes, and the need for new and improved analytical technology.

**Protocols and Applications for the Industrial Internet of Things** González García, Cristian, García-Díaz,

Vicente, García-Bustelo, B. Cristina Pelayo, Lovelle, Juan Manuel Cueva, 2018-04-13 The Internet of Things (IoT) has become a major influence on the development of new technologies and innovations. **Protocols and Applications for the Industrial Internet of Things** discusses and addresses the difficulties, challenges, and applications of IoT in industrial processes and production and work life. Featuring coverage on a broad range of topics such as industrial process control, machine learning, and data mining, this book is geared toward academicians, computer engineers, students, researchers, and professionals seeking current and relevant research on applications of the IoT.

*Building an Effective IoT Ecosystem for Your Business* Sudhi R.

Sinha, Youngchoon Park, 2017-07-20 This descriptive practical guide explains how to build a commercially impactful, operationally effective, and technically robust IoT ecosystem that takes advantage of the IoT revolution and drives business growth in the consumer IoT as well as industrial internet spaces. With this book, executives, business managers, developers, and decision makers are given the tools to make more informed decisions about IoT solution development, partner ecosystem design, and the monetization of products and services. Security and privacy issues are also addressed. Readers will explore the design guidelines and technology choices required to build commercially viable IoT solutions but also uncover the various

monetization and business modeling for connected products      *Higher Education Pathways* Ashwin, Paul, Case, Jennifer M., 2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues

Computer and Communication Engineering Filippo Neri, Ke-Lin Du, Vijaya Kumar Varadarajan, San-Blas Angel-Antonio, Zhiyu Jiang, 2022-09-23 This book constitutes refereed proceedings of the 2nd International Conference on Computer and Communication Engineering CCCE 2022 held in Rome Italy March 11 13 2022 The 9 full papers and 8 short papers presented in this volume were carefully reviewed and selected from a total of 36 submissions The papers in the volume are organised according to the following topical headings information science and mobile communication computer and electronic engineering      **Introduction to LabVIEW FPGA for RF, Radar, and Electronic Warfare Applications**

Terry Stratoudakis, 2021-01-31 Real time testing and simulation of open and closed loop radio frequency RF systems for signal generation signal analysis and digital signal processing require deterministic low latency high throughput capabilities afforded by user reconfigurable field programmable gate arrays FPGAs This comprehensive book introduces LabVIEW FPGA provides best practices for multi FPGA solutions and guidance for developing high throughput low latency FPGA based RF systems Written by a recognized expert with a wealth of real world experience in the field this is the first book written on the subject of FPGAs for radar and other RF applications      **Empowering Science and Mathematics for Global**

**Competitiveness** Yuli Rahmawati, Peter Taylor, 2019-06-07 This conference proceedings focuses on enabling science and mathematics practitioners and citizens to respond to the pressing challenges of global competitiveness and sustainable development by transforming research and teaching of science and mathematics The proceedings consist of 82 papers presented at the Science and Mathematics International Conference SMIC 2018 organised by the Faculty of Mathematics and Natural Sciences Universitas Negeri Jakarta Indonesia The proceedings are organised in four parts Science Science Education Mathematics and Mathematics Education The papers contribute to our understanding of important contemporary issues in science especially nanotechnology materials and environmental science science education in particular environmental sustainability STEM and STEAM education 21st century skills technology education and green chemistry and

mathematics and its application in statistics computer science and mathematics education      Environmentalism in Central and Southeastern Europe Hrvoje Petric,Ivana Žebec Šilj,2017-03-17 Consisting of 12 chapters the book presents the rise and development of environmentalism environmental history as a discipline and the history of environmental movements in the Central and South Eastern European region from an international point of view The chapters written by scholars from Italy Austria Slovenia Croatia Slovakia Romania Serbia Greece and Turkey cover a wide range of topics including the creation of protected areas increasing environmental consciousness the evolution of humanity s relationship toward the environment and perceptions of environmentalism by different disciplines This international approach highlights the region s complex development from the end of the eighteenth century through the twentieth century with its unique blend of traditions Three historically different traditions the Habsburg Ottoman and Venetian converge in Central and South Eastern Europe and this book emphasizes the subtleties of these sometimes intertwined traditions The focus of the book varies according to both the different geographical environments characteristic of the region and the protagonists who actively participated in changing relationships toward the environment However what does not vary and is common to all the chapters is the historical approach since the process has continuity which the book accentuates In geographical terms the region that is the focus of the book Central and South Eastern Europe is the contact zone of the Alps Danube Adriatic and partially the North Eastern Mediterranean Sea Throughout history it was also the contact zone of the Habsburg Ottoman and Venetian traditions Those realities have resulted in a unique blending and intertwining of traditions and therefore relationships with and perceptions of the environment      **Innovation and Accountability in Teacher Education** Claire Wyatt-Smith,Lenore Adie,2018-10-24 This is the foundational book for the new series Teacher Education Learning Innovation and Accountability The book canvasses research practice and policy perspectives in teacher education across diverse geographic social and political contexts It explores the lifespan of teacher development from initial preparation through to graduate classroom practice as it occurs in an intensifying culture of standards and regulation The characterization of initial teacher education ITE in a crucible of change permeates throughout the book The chapters open up new ways of thinking about innovation and accountability in ITE and the professionalization of teaching exploring fundamental questions such as Who are the actors in teacher preparation and how do they interact How can we learn about the quality of teacher education Where can we hear the voices of teacher educators and preservice teachers as well as school based teacher educators What are the new and emerging roles of others in teacher education who have not been involved previously including employing authorities p 22 While the book provides responses to these and other provocative questions it also offers new insights into innovative teacher education from a wide range of policy and practice contexts      **Leap 4.0. African Perspectives on the Fourth Industrial Revolution** Zamanzima Mazibuko-Makena,Erika Kraemer-Mbula.,2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the

African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts

*FPGA-BASED Hardware Accelerators* Iouliia Skliarova,Valery Sklyarov,2019-05-30 This book suggests and describes a number of fast parallel circuits for data vector processing using FPGA based hardware accelerators Three primary areas are covered searching sorting and counting in combinational and iterative networks These include the application of traditional structures that rely on comparators swappers as well as alternative networks with a variety of core elements such as adders logical gates and look up tables The iterative technique discussed in the book enables the sequential reuse of relatively large combinational blocks that execute many parallel operations with small propagation delays For each type of network discussed the main focus is on the step by step development of the architectures proposed from initial concepts to synthesizable hardware description language specifications Each type of network is taken through several stages including modeling the desired functionality in software the retrieval and automatic conversion of key functions leading to specifications for optimized hardware modules The resulting specifications are then synthesized implemented and tested in FPGAs using commercial design environments and prototyping boards The methods proposed can be used in a range of data processing applications including traditional sorting the extraction of maximum and minimum subsets from large data sets communication time data processing finding frequently occurring items in a set and Hamming weight distance counters comparators The book is intended to be a valuable support material for university and industrial engineering courses that involve FPGA based circuit and system design

**Higher Education ICT Integration in Africa** Ke Yu,Reuben Dlamini,2024-08-21 This multidisciplinary edited volume examines higher educations ICT integration in Africa contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource restrained contexts Tackling ICT incorporation in HEIs from different levels chapters document case studies from countries such as Uganda South Africa Rwanda Eswatini and Zimbabwe to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions The cases included in this book also exhibit better incorporation of both change content and process while some cases also make explicit reference to other technology adoption models Ultimately the book highlights conceptual and empirical research to inform practices and policy development in Africa improving multi level success or change readiness in ICT incorporation in HEIs in Africa Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model this book will therefore be

of interest to scholars researchers and academics in the fields of higher education ICT integration and educational technology more broadly The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**AVENUE21. Connected and Automated Driving: Prospects for Urban Europe** Mathias Mitteregger, Emilia M. Bruck, Aggelos Soteropoulos, Andrea Stickler, Martin Berger, Jens S. Dangschat, Rudolf Scheuven, Ian Banerjee, 2021-10-07 This open access publication examines the impact of connected and automated vehicles on the European city and the conditions that can enable this technology to make a positive contribution to urban development The authors argue for two theses that have thus far received little attention in scientific discourse as connected and automated vehicles will not be ready for use in all parts of the city for a long time previously assumed effects from traffic safety to traffic performance as well as spatial effects will need to be re-evaluated To ensure this technology has a positive impact on the mobility of the future transport and settlement policy regulations must be adapted and further developed Established territorial institutional and organizational boundaries must be investigated and challenged quickly Despite or indeed because of the many uncertainties we find ourselves at the beginning of a new design phase not only in terms of technology development but also regarding politics urban planning administration and civil society
