Mazzeno, 2014-03-06 Victorian literature's fascination with the past its examination of social injustice and its struggle to deal with the dichotomy between scientific discoveries and religious faith continue to fascinate scholars and contemporary readers During the past hundred years traditional formalist and humanist criticism has been augmented by new critical approaches including feminism and gender studies psychological criticism cultural studies and others In Twenty First Century Perspectives on Victorian Literature twelve scholars offer new assessments of Victorian poetry novels and nonfiction Their essays examine several major authors and works and introduce discussions of many others that have received less scholarly attention in the past General reviews of the current status of Victorian literature in the academic world are followed by essays on such writers as Charles Dickens Alfred Tennyson Thomas Hardy and the Brontë sisters These are balanced by essays that focus on writing by women the development of the social problem novel and the continuity of Victorian writers with their Romantic forebears Most importantly the contributors to this volume approach Victorian literature from a decidedly contemporary scholarly angle and write for a wide audience of specialists and non specialists alike Their essays offer readers an idea of how critical commentary in recent years has influenced and in some cases changed radically our understanding of and approach to literary study in general and the Victorian period in particular Hence scholars teachers and students will find the volume a useful survey of contemporary commentary not just on Victorian literature but also on the period as a whole The Victorian Era in Twenty-First Century Children's and Adolescent Literature and Culture Sonya Sawyer Fritz, Sara K. Day, 2018-01-19 Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people In turn this collection argues contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals particularly as they relate to child and adolescent readers and our experiences of them The essays therein suggest that we struggle now as the Victorians did then to assert a cohesive understanding of young readers and that this lack of cohesion is a result of or a parallel to the disruptions taking place on a larger even global scale

Epic Performances from the Middle Ages into the Twenty-First Century Fiona Macintosh, Justine McConnell, Stephen Harrison, Claire Kenward, 2018-10-26 Greek and Roman epic poetry has always provided creative artists in the modern world with a rich storehouse of themes Tim Supple and Simon Reade's 1999 stage adaptation of Ted Hughes' *Tales from Ovid* for the RSC heralded a new lease of life for receptions of the genre and it now routinely provides raw material for the performance repertoire of both major cultural institutions and emergent experimental theatre companies This volume represents the first systematic attempt to chart the afterlife of epic in modern performance traditions with chapters covering not only a significant chronological span but also ranging widely across both place and genre analysing

lyric film dance and opera from Europe to Asia and the Americas What emerges most clearly is how anxieties about the ability to write epic in the early modern world together with the ancient precedent of Greek tragedy's reworking of epic material explain its migration to the theatre This move though was not without problems as epic encountered the barriers imposed by neo classicists who sought to restrict serious theatre to a narrowly defined reality that precluded its broad sweeps across time and place In many instances in recent years the fact that the Homeric epics were composed orally has rendered reinvention not only legitimate but also deeply appropriate opening up a range of forms and traditions within which epic themes and structures may be explored Drawing on the expertise of specialists from the fields of classical studies English and comparative literature modern languages music dance and theatre and performance studies as well as from practitioners within the creative industries the volume is able to offer an unprecedented modern and dynamic study of epic content and form across myriad diverse performance arenas

J. G. Ballard D. Harlan Wilson, 2017-11-10 Prophetic short stories and apocalyptic novels like *The Crystal World* made J G Ballard a foundational figure in the British New Wave Rejecting the science fiction of rockets and aliens he explored an inner space of humanity informed by psychiatry and biology and shaped by surrealism Later in his career Ballard's combustible plots and violent imagery spurred controversy even legal action while his autobiographical 1984 war novel *Empire of the Sun* brought him fame D Harlan Wilson offers the first career spanning analysis of an author who helped steer SF in new if startling directions Here was a writer committed to moral ambiguity one who drowned the world and erected a London high rise doomed to descend into savagery and coolly picked apart the characters trapped within each story Wilson also examines Ballard's methods his influence on cyberpunk and the ways his fiction operates within the sphere of our larger culture and within SF itself
