Destination Dictatorship Justin Crumbaugh, 2010-07-02 When the right wing military dictatorship of Francisco Franco decided in 1959 to devalue the Spanish currency and liberalize the economy the country's already steadily growing tourist industry suddenly ballooned to astounding proportions Throughout the 1960s glossy images of high rise hotels crowded beaches and blondes in bikinis flooded public space in Spain as the Franco regime showcased its success In *Destination Dictatorship* Justin Crumbaugh argues that the spectacle of the tourist boom took on a sociopolitical life of its own allowing the Franco regime to change in radical and profound ways to symbolize those changes in a self-serving way and to mobilize new reactionary social logics that might square with the structural and cultural transformations that came with economic liberalization Crumbaugh's illuminating analysis of the representation of tourism in Spanish commercial cinema newsreels political essays and other cultural products overturns dominant assumptions about both the local impact of tourism development and the Franco regime's final years

Love in the Hebrew Bible Song-Mi Suzie Park, 2023-05-30 Christians insist that love stands at the heart of who God is Yet when we talk about love in the Hebrew Bible how much do we really know Possessing such a belief alone does not mean that we possess a clear understanding of what love is Are we aware of how often divine and human love are tied up with the idea of preference for one individual or group over another Do we know how often descriptions of love involve questions of power authority and gender Do we see that love is connected to suffering betrayal and sometimes death in the Hebrew Scriptures In *Love in the Hebrew Bible* one of the first book-length studies of its kind Suzie Park provides fascinating and essential insights into these questions refreshing our understanding of the meaning of love in the Hebrew Bible Pushing against characterizations of the loving God of the New Testament narrative universe versus the wrathful God of the Old Testament Park shows that love is integral to the ways in which relationships both among people and also between humanity and God are imagined in the Hebrew text Reflecting matrices of meaning and associations love thus is a vital component of the ideology and theology of the Hebrew Scriptures and an understanding of it remains fundamental to our knowledge of the biblical text

Finance Fictions Rebecca A. Adelman, 2018-11-20 In the United States the early years of the war on terror were marked by the primacy of affects like fear and insecurity These aligned neatly with the state's drive toward intensive securitization and an aggressive foreign policy But for the broader citizenry such affects were tolerable at best and unbearable at worst they were not sustainable *Figuring Violence* catalogs the affects that define the latter stages of this war and the imaginative work that underpins them These affects apprehension affection admiration gratitude pity and righteous anger are far more subtle and durable than their predecessors rendering them deeply compatible with the ambitions of a state embroiling itself in a perpetual and unwinnable war Surveying the cultural landscape of this sprawling conflict *Figuring Violence* reveals the varied mechanisms by which these affects have

been militarized Rebecca Adelman tracks their convergences around six types of beings civilian children military children military spouses veterans with PTSD and TBI Guant namo detainees and military dogs All of these groups have become preferred objects of sentiment in wartime public culture but they also have in common their status as political subjects who are partially or fully unknowable They become visible to outsiders through a range of mediated and imaginative practices that are ostensibly motivated by concern or compassion However these practices actually function to reduce these beings to abstracted figures silencing their political subjectivities and obscuring their suffering As a result they are erased and rendered hypervisible at once Figuring Violence demonstrates that this dynamic ultimately propagates the very militarism that begets their victimization
