Abstracted from the folio edition ... The tenth edition Samuel Johnson, 1794 The Tyrant's Novel Thomas Keneally, 2004-06-01 From the Booker Prize winning 1 international bestselling author of Schindler's List comes a brilliantly imagined novel reminiscent of Fahrenheit 451 a story of a celebrated novelist caught between the demands of his government and his impulse to run for his life Thomas Keneally's literary achievements have been inspired by some of history s most intriguing events and characters but in a rare reversal of time his brilliantly imagined new novel takes us into a near future that uncannily is all too familiar In a detention camp where he is neither granted asylum nor readied to be sent back to his native land a detainee bides his time He insists on being called Alan Sheriff a westernization of his given name he was born in a country that had once been a friend to the United States but is now its enemy Little else is known about Sheriff until a writer comes to interview him Sheriff decides that the time is right to tell his visitor his story and embarks on the unraveling of events that have led to his current state with extraordinary detail the basis of which forms this novel within a novel Sheriff is a celebrated novelist in a country in which its brutal leader orders Sheriff to ghostwrite a work of fiction an uneasy combination of invention autobiography and polemic the very publication of which would overturn Western sanctions and shame the United States The deadline is impossible but the government enforcers guard his house and stalk his every move It is not long before Sheriff becomes the tyrant's caged canary as he races against the deadline that threatens to cost him everything and everyone he holds dear Provocative and possibly prophetic The Tyrant's Novel is a literary achievement inspired by recent history s most intriguing events and characters Here Keneally once more combines as he did in Schindler s List his fictional talent with his engagement in world politics Luther's Legacy Robert von Friedeburg, 2016-02-04 A new account of the intellectual debates that created the German notion of the modern state under the Thirty Years War
