

Nickel and Dimed: On (Not) Getting By in America by Barbara Ehrenreich

Background: Our sharpest and most original social critic goes “undercover” as an unskilled worker to reveal the dark side of American prosperity.

Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job – any job – can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly “unskilled,” that even the lowliest occupations require exhausting mental and muscular effort.

Introduction- pages 1- 10

1. At the outset of undertaking her project, Ehrenreich sets about creating “certain rules and parameters.” What are her rules? What resources does she allow herself that the working poor might not have?
2. What advantages does Ehrenreich start out with those members of the working poor might lack?
3. According to this book, what are some of the things that could “give away” the fact that Ehrenreich is not really a member of the working poor? How does she try to “disguise” her middle-class lifestyle?
4. In the Introduction to Nickel and Dimed, the author writes: “Unlike many low wage workers, I have the further advantages of being white and a native English speaker.” How and why were these two facets of Ehrenreich’s identity advantageous over the full duration of her study?

Chapter One: Serving in Florida Pages 11-49

1. Early in Chapter One, Ehrenreich notes that, in terms of low-wage work, “The want ads are not a reliable measure of the actual jobs available at any particular time.” Explain why this is so.
