Nietzsche A Very Short Introduction:

Nietzsche Michael Tanner,2000 Michael Tanner's readable introduction to the philosopher's life and work examines the numerous ambiguities inherent in his writings traces his development and explodes many misconceptions **Nietzsche: A Very Short Introduction** Michael Tanner,2000-10-19 The philosophy of Friedrich Nietzsche 1844 1900 was almost wholly neglected during his sane life which came to an abrupt end in 1889 Since then he has been appropriated as an icon by an astonishingly diverse spectrum of people whose interpretations of his thought range from the highly irrational to the firmly analytical Thus Spoke Zarathustra introduced the superman and The Twilight of the Idols developed the Will to Power concept these term together with Sklavenmoral and Herrenmoral became confused with the rise of nationalism in Germany Idiosyncratic and aphoristic Nietzsche is always bracing and provocative and temptingly easy to dip into Michael Tanner's readable introduction to the philosopher's life and work examines the numerous ambiguities inherent in his writings It also explodes the many misconceptions fostered in the hundred years since Nietzsche wrote prophetically Do not above all confound me with what I am not ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [Introductions to Nietzsche](#) Robert Pippin,2012-02-09 Friedrich Nietzsche 1844 1900 is one of the most important philosophers of the last two hundred years whose writings both published and unpublished have had a formative influence on virtually all aspects of modern culture This volume offers introductory essays on all of Nietzsche's completed works and also his unpublished notebooks The essays address such topics as his criticism of morality and Christianity his doctrines of the will to power and the eternal recurrence his perspectivism his theories of tragedy and nihilism and his thoughts on ancient and modern culture Written by internationally recognized scholars they provide the interested reader with an up to date and authoritative overview of the thought of this fascinating figure **Philosophy: A Very Short Introduction** Edward Craig,2002-02-21 Philosophy introduces important themes in ethics knowledge and the self via readings from Plato Aristotle Darwin and Buddhist writers It explains how areas of philosophy relate and explores the contexts in which philosophy was and is done *Spinoza: A Very Short Introduction* Roger Scruton,2002-05-30 Benedict de Spinoza 1632 77 was at once the father of the Enlightenment and the last sad guardian of the medieval world In his brilliant synthesis of geometrical method religious sentiment and secular science he attempted to reconcile the conflicting moral and intellectual demands of his epoch and to present a vision of humanity as simultaneously bound by necessity and eternally free In this book Roger Scruton presents a clear and systematic analysis of Spinoza's thought and shows its relevance to today's intellectual preoccupations *Nietzsche & Anarchism: An Elective Affinity and a Nietzschean reading of the December '08 revolt in Athens* Christos Iliopoulos,2019-10-15 This book aims to establish the bond between Friedrich Nietzsche and the

anarchists through the apparatus of elective affinity and to challenge the boundaries of several anarchist trends especially classical and post anarchism and ideologies like anarchism and libertarian Marxism Moreover it highlights the importance of reading Nietzsche politically in a radical way to understand his utility for the contemporary anarchist movement The review of the literature concerning the Nietzsche anarchy relationship shows the previously limited bibliography and stresses the possibility of exploring this connection with the methodological help of Michael L wy s concept of elective affinity The significance of this finding is that the relevant affinity may contribute to an alternative to the dominant perception of anarchism as an ideology It may also designate its special features together with its weaknesses meaning the objections of Nietzsche to certain aspects of the anarchist practices and worldview violence resentment bad conscience thus opening a whole new road of self criticism for the anarchists of the twenty first century In addition the location and analysis of the elective affinity serves the debunking of the Nietzschean concepts used by conservative and right wing readings in order to appropriate Nietzsche and of the accusations that the German philosopher had unleashed against anarchists which reveals his misunderstanding of anarchist politics The final part of this book applies the whole analysis above on a Nietzschean reading of the December 08 revolt in Athens based on the Of the Three Metamorphoses discourse from Thus Spoke Zarathustra offering an alternative view of the events that shook Greece and also had an important global impact

Nietzsche on Art and Life Daniel Came,2014-04-24 Nietzsche was not interested in the nature of art as such or in providing an aesthetic theory of a traditional sort For he regarded the significance of art to lie not in l art pour l art but in the role that it might play in enabling us positively to revalue the world and human experience This volume brings together a number of distinguished figures in contemporary Anglo American Nietzsche scholarship to examine his views on art and the aesthetic in the context of this wider philosophical project All of the major themes of Nietzsche s aesthetics are discussed art and the affirmation of life the relationship between art and truth music tragedy the nature of aesthetic experience the role of art in Nietzsche s positive ethics his critique of romanticism and his ambivalent attitude towards Richard Wagner

Nietzsche Pursued Richard Schacht,2024-09-25 An ambitious venture into Nietzsche s envisioned philosophy for the future Nietzsche advocated for a

post theistic philosophy of the future a new approach to human reality that would bend Western thought away from nihilism in a life affirming value creative direction His early demise left this endeavor only just begun In Nietzsche Pursued Richard Schacht examines Nietzsche's revisionist approach to familiar philosophical topics exploring how some may be further pursued in Nietzschean ways Each chapter focuses on one topic that is central to Nietzsche's vision of what philosophy can and should be and do Among them his kind of naturalism humanity perspectivism morality and music Building on his analysis in Nietzsche's Kind of Philosophy Schacht invites readers to see with new appreciation the ongoing significance of Nietzsche's thought for philosophy's future

Nietzsche's Kind of Philosophy Richard Schacht, 2024-05-31 A holistic reading of Nietzsche's distinctive thought beyond the death of God In Nietzsche's Kind of Philosophy Richard Schacht provides a holistic interpretation of Friedrich Nietzsche's distinctive thinking developed over decades of engagement with the philosopher's work For Schacht Nietzsche's overarching project is to envision a philosophy of the future attuned to new challenges facing Western humanity after the death of God when monotheism no longer anchors our understanding of ourselves and our world Schacht traces the developmental arc of Nietzsche's philosophical efforts across Human All Too Human Daybreak Joyful Knowing The Gay Science Thus Spoke Zarathustra Beyond Good and Evil and On the Genealogy of Morality He then shows how familiar labels for Nietzsche nihilist existentialist individualist free spirit and naturalist prove insufficient individually but fruitful if refined and taken together The result is an expansive account of Nietzsche's kind of philosophy

The European Philosophers from Descartes to Nietzsche Monroe Beardsley, 2002-11-12 Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography

Historical Dictionary of Nietzscheanism Carol Diethe, 2013-12-19 Few philosophers have been as popular prolific and controversial as Friedrich Nietzsche who has left his imprint not only on philosophy but on all the arts Whether it is his concept of the *bermensch* or his nihilistic view of the world Nietzsche's writings have aroused enormous interest as well as anathema in scholars for centuries This third edition of Historical Dictionary of Nietzscheanism covers the history of this philosophy through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on his major writings his contemporaries and his successors This book is an excellent access point for students researchers and anyone wanting to know more about Friedrich Nietzsche

Nietzsche's Political Skepticism Tamsin Shaw, 2010-07-21 It is difficult to spell out the precise political implications of Nietzsche's critique of morality He himself never did so in any systematic way Tamsin Shaw argues there is a reason for this that

Nietzsche's insights entail a distinctive form of political skepticism *Friedrich Nietzsche* Ritchie Robertson, 2022-08-22 An accessible and informative study of the life and work of this vaunted German philosopher In this concise yet comprehensive critical biography Ritchie Robertson examines the work of Friedrich Nietzsche within the context of his life The book traces Nietzsche's development from outstanding classical scholar to cultural critic who measured Imperial Germany by the standards of ancient Greece It follows him on his path from a prophet in the persona of Zarathustra to a savage polemicist against modern liberal values offering a philosophy of the future Robertson argues that Nietzsche's middle period writings offer a subtle and searching analysis of his culture more rewarding than the strident and often controversial later works The book also assesses Nietzsche's claim to be continuing the Enlightenment and shows that he valued reason evidence and fact without which his historical case against Christianity would make no sense **Nietzsche's Zarathustra** Kathleen Marie Higgins, 2010-01-01 Nietzsche's Zarathustra is a guide through the convoluted territory of Nietzsche's Thus Spoke Zarathustra It shows the philosophical significance of the fictional format as a means to simultaneously propose alternatives to traditional dogmas within the Western tradition and reveal the danger of mistaking doctrinal formulations for living philosophical insight **Nietzsche on the Decadence and Flourishing of Culture** Andrew Huddleston, 2019 Andrew Huddleston presents a striking challenge to the standard view of Nietzsche as the champion of the great individual and preoccupied with his own quasi artistic self cultivation Huddleston focuses on Nietzsche's idea of a flourishing culture to bring out the deep social and collectivist character of his thought **Nietzsche and Literary Studies** James I. Porter, 2024-04-25 Nietzsche and Literary Studies tackles the literary implications of Nietzsche's philosophy and the philosophical implications of his approaches to style and expression The book offers a complete guide to Nietzsche's writings which in turn draw on two and a half millennia of literary and philosophical history reaching back to Heraclitus Plato and the Cynics and from there to Diderot the Schlegels Stendahl and Stifter and have inspired a further century of responses from literary writers and philosophers from Proust Gide and Thomas Mann to Derrida and Sarah Kofman Individual chapters cover aphorism the novel form dialogue and dialogism metaphor truth lies and self creation Contributions are written by scholars from a wide range of fields including classical studies literary theory history of literature and philosophy including Nietzsche studies theology and religion and ecology **Nietzsche's Great Politics** Hugo Drochon, 2018-04-03 A superb case of deep intellectual renewal and the most important book to have been written about Nietzsche in the past few years Gavin Jacobson New Statesman Nietzsche's impact on the world of culture philosophy and the arts is uncontested but his political thought remains mired in controversy By placing Nietzsche back in his late nineteenth century German context Nietzsche's Great Politics moves away from the disputes surrounding Nietzsche's appropriation by the Nazis and challenges the use of the philosopher in postmodern democratic thought Rather than starting with contemporary democratic theory or continental philosophy Hugo Drochon argues that Nietzsche's political ideas must first be understood in light of Bismarck's policies in

particular his Great Politics which transformed the international politics of the late nineteenth century Nietzsche's Great Politics shows how Nietzsche made Bismarck's notion his own enabling him to offer a vision of a unified European political order that was to serve as a counterbalance to both Britain and Russia This order was to be led by a good European cultural elite whose goal would be to encourage the rebirth of Greek high culture In relocating Nietzsche's politics to their own time the book offers not only a novel reading of the philosopher but also a more accurate picture of why his political thought remains so relevant today

Nietzsche's Posthumanism Edgar Landgraf, 2023-08-22 A timely and trenchant commentary on the centrality of Nietzsche's thought for our time While many posthumanists claim Nietzsche as one of their own rarely do they engage his philosophy in any real depth Nietzsche's Posthumanism addresses this need by exploring the continuities and disagreements between Nietzsche's philosophy and contemporary posthumanism Focusing specifically on Nietzsche's reception of the life sciences of his day and his reflections on technology research areas as central to Nietzsche's work as they are to posthumanism Edgar Landgraf provides fresh readings of Nietzsche and a critique of post and transhumanist philosophies Through Landgraf's inquiry lesser known aspects of Nietzsche's writings emerge including the neurophysiological basis of his epistemology which anticipates contemporary debates on embodiment his concerns with insects and the emergent social properties they exhibit and his reflections on the hominization and cultivation effects of technology In the process Landgraf challenges major commonplaces about Nietzsche's philosophy including the idea that his social theory asserts the rights of the strong over the weak The ethos of critical posthumanism also offers a new perspective on key ethical and political contentions of Nietzsche's writings Nietzsche's Posthumanism presents a uniquely framed introduction to tenets of Nietzsche's thought and major trends in posthumanism making it an essential exploration for anyone invested in Nietzsche and his contemporary relevance and in posthumanism and its genealogy Retail e book files for this title are screen reader friendly
