Voynich Reconsidered Robert H. Edwards, 2024-04-28 In this book, Dr. Robert Edwards brings a fresh mathematical perspective to the Voynich manuscript and sets out a strategy whereby the interested reader could extract meaning from the seemingly impenetrable symbols if meaning is there to be found. The Voynich manuscript has been described as the most mysterious document in the world. In 1637, a Bohemian scholar sent a mysterious manuscript to the celebrated professor Athanasius Kircher in Rome. Kircher promised to decipher it when the mood took him. He never did. Later antiquarian bookseller Wilfrid Voynich claimed that he had discovered it in 1912 in a castle in Europe. It contains hundreds of bizarre illustrations that seem to represent plants, stars, animals, zodiac signs, strange receptacles, and naked women in pools and streams of green water. Throughout its over 200 pages are strings of glyphs or symbols that look like

words but the symbols do not belong to any known living or extinct languages No one knows what these symbols mean or even whether they mean anything though hundreds of scholars have tried to decipher them for 500 years Today all that we know for sure is that the parchment probably dates from the early 15th century *Red Sky at Night* Deborah Taylor-French,2018-05-26 Nevada is a hotheaded twelve year old girl who dreams of rescuing and training dogs Her grandmother mentors Nevada to help her understand dogs needs One night Nevadas happy life alters when the sky burns red Nevada races to save a family their sheep and barn cats from a wildfire Although her father worries over her recklessness shes hailed a hero in her small town of Eagle Creek California Local ranchers are not yet aware that they will soon depend on Nevada to stop a serial arsonist and his greedy plans After her school is torched and the damage blamed on students Nevada along with her best friends and canine pal hunt the arsonist to stop him before he sets off a firestorm
