Vol. 31: Going Film Pro II: The Canon EOS 1N: Standard Edition Shawn M. Tomlinson,2018-12-31 In some ways the Nikon F5 is easier to use than the Canon EOS 1N but it is not nearly as elegant There s just something about the way the Canon EOS 1N feels in my hands when I m shooting with it that makes me never want to put it down In that way it reminds me much more of the Nikon F4S than the Nikon F5Practically since I placed the order for the camera it was inevitable that I would need to write about it If you are seeking the perfect late model film SLR camera you need look no further than the second to last pro level Canon EOS 1N Just load a roll of film take the camera in your hands and start shooting You too will never want to let it go
