To What Ends and By What Means Gloria M. Rodriguez, R. Anthony Rolle, 2013-10-31

This unique collection examines the social justice implications of contemporary economic finance and budgeting policies affecting the K 12 education system in the United States The authors included in this volume provide critiques and explorations of several established theories and policy approaches that undergird contemporary thinking in the field of school finance These explorations offer themselves as foundations for building new frameworks to understand how school finance policies might better support broader changes needed to improve the educational conditions faced by those individuals and groups traditionally underrepresented in economic political and social policy arenas San Diego Magazine , 2006-07

Reform as Learning Lea Ann Hubbard, Mary Kay Stein, Hugh Mehan, 2013-10-18 Looking closely at the recent reform efforts in San Diego this book explores the full range of critical issues pertaining to urban school reform Drawing on the systemic school reform initiative that was launched in San Diego in the 1990s this book explores all layers of the school reform process from leadership in the central office to work with principals and teachers to the impact on how teachers worked with students in the classroom The authors draw on careful ethnographic research collected over the entire four years of the San Diego reforms in order to identify not only how teachers principals and other district educators were shaped

by the large scale reforms but also the ways in which the reform unfolded In doing so the book shows more broadly how actors throughout a school system can change the views of leaders and impact the larger reform process *San Diego Magazine* ,2006-07 San Diego Magazine gives readers the insider information they need to experience San Diego from the best places to dine and travel to the politics and people that shape the region This is the magazine for San Diegans with a need to know
