Introduction to Wildlife and Fisheries Charles G. Scalet, Lester D. Flake, David Willis, 1996-01-15 Thoroughly updated with an inviting new design the Second Edition offers the most current and accessible coverage of essential biological concepts and their applications principles of resource management and conservation and contemporary and public policy issues affecting today s scientists and resources **Lean Logic** David Fleming, 2016 Lean Logic is David Fleming s masterpiece the product of more than thirty years work and a testament to the creative brilliance of one of Britain s most important intellectuals A dictionary unlike any other it leads readers through Fleming s stimulating exploration of fields as diverse as culture history science art logic ethics myth economics and anthropology being made up of four hundred and four engaging essay entries covering topics such as Boredom Community Debt Growth Harmless Lunatics Land Lean Thinking Nanotechnology Play Religion Spirit Trust and Utopia The threads running through every entry are Fleming s deft and original analysis of how our present market based economy is destroying the very foundations ecological economic and cultural on which it depends and his core focus a compelling grounded vision for a cohesive society that might weather the consequences A society that provides a satisfying culturally rich context for lives well lived in an economy not reliant on the impossible promise of eternal economic growth A society worth living in Worth fighting for Worth contributing to The beauty of the dictionary format is that it allows Fleming to draw connections without detracting from his in depth exploration of each topic Each entry carries intriguing links to other entries inviting the enchanted reader to break free of the imposed order of a conventional book starting where she will and following the links in the order of her choosing In combination with Fleming s refreshing writing style and good natured humor it also creates a book perfectly suited to dipping in and out The decades Fleming spent honing his life s work are evident in the lightness and mastery with which Lean Logic draws on an incredible wealth of cultural and historical learning from Whitman to Whitefield Dickens to Daly Kropotkin to Kafka Keats to Kuhn Oakeshott to Ostrom Jung to Jensen Machiavelli to Mumford Mauss to Mandelbrot Leopold to Lakatos Polanyi to Putnam

Nietzsche to Nass Keynes to Kumar Scruton to Shiva Thoreau to Toynbee Rabelais to Rogers Shakespeare to Schumacher Locke to Lovelock Homer to Homer Dixon in demonstrating that many of the principles it commends have a track record of success long pre dating our current society Fleming acknowledges with honesty the challenges ahead but rather than inducing despair Lean Logic is rare in its ability to inspire optimism in the creativity and intelligence of humans to nurse our ecology back to health to rediscover the importance of place and play of reciprocity and resilience and of community and culture Recognizing that Lean Logic's sheer size and unusual structure could be daunting Fleming's long time collaborator Shaun Chamberlin has also selected and edited one of the potential pathways through the dictionary to create a second stand alone volume Surviving the Future Culture Carnival and Capital in the Aftermath of the Market Economy The content rare insights and uniquely enjoyable writing style remain Fleming's but presented at a more accessible paperback length and in conventional read it front to back format

Refugia Faith Debra Rienstra, 2022-02-22 Refugia Faith Seeking Hidden Shelters Ordinary Wonders and the Healing of the Earth explores how Christian spirituality and practice must adapt to prepare for life on a climate altered planet Refugia reh FU jee ah is a biological term describing places of shelter where life endures in times of crisis such as a volcanic eruption fire or stressed climate Ideally these refugia endure expand and connect so that new life emerges Debra Rienstra applies this concept to human culture and faith asking In this era of ecological devastation how can Christians become people of refugia How can we find and nurture these refugia not only in the biomes of the earth but in our human cultural systems and in our spiritual lives How can we apply all our love and creativity to this task as never before Rienstra recounts her own process of reeducation beginning not as a scientist or an outdoors enthusiast but by examining the wisdom of theologians and philosophers farmers and nature writers scientists and activists and especially people on the margins By weaving nature writing personal narrative and theological reflection Rienstra grapples honestly with her own fears and longings and points toward a way forward a way to transform Christian

spirituality and practice become a healer on a damaged earth and inspire others to do the same Refugia Faith speaks to people securely within the faith as well as to those on the edge providing a suitable entry for those who sense that this era of upheaval requires a transformed faith but who don't quite know where to begin *Living a Land Ethic* Stephen A.

Laubach, 2014-07-24 A significant and important story about how a small group of landowners inspired by Aldo Leopold pioneered private conservation and ecological restoration It offers an insightful reflection on what it means to live the land ethic that is quite relevant to today's growing conservation challenges Tia Nelson **The Green Halo** Erazim

Kohak, 2011-04-15 The Green Halo is a highly readable introduction to the vast field of contemporary ecological thought It is a basic education in environmental philosophy and a welcome propaedeutic for understanding the most crucial problem facing humankind in the coming century How can humans live on this earth so that they do not destroy the preconditions for their own existence *Food, Animals, and the Environment* Christopher Schlottmann, Jeff Sebo, 2018-09-14 Food Animals and the Environment An Ethical Approach examines some of the main impacts that agriculture has on humans nonhumans and the environment as well as some of the main questions that these impacts raise for the ethics of food production consumption and activism Agriculture is having a lasting effect on this planet Some forms of agriculture are especially harmful For example industrial animal agriculture kills 100 billion animals per year consumes vast amounts of land water and energy and produces vast amounts of waste pollution and greenhouse gas emissions Other forms such as local organic and plant based food have many benefits but they also have many costs especially at scale These impacts raise difficult ethical questions What do we owe animals plants species and ecosystems What do we owe people in other nations and future generations What are the ethics of risk uncertainty and collective harm What is the meaning and value of natural food in a world reshaped by human activity What are the ethics of supporting harmful industries when less harmful alternatives are available What are the ethics of resisting harmful industries through activism advocacy and philanthropy The discussion ranges over cutting edge topics such as effective altruism abolition and regulation revolution and reform individual and structural change single issue and multi issue activism and legal and illegal activism This unique and accessible text is ideal for teachers students and anyone else interested in serious examination of one of the most complex and important moral problems of our time

Time Traveled Krista Marson, 2023-03-07 TIME TRAVELED is a highly entertaining compendium of travel tales told by an adventurer who fancies herself a poet Themes such as nature history and art rank high on her literary list as well as loneliness and the importance of having someone to love Tripping over the remnants of who we used to be this explorer diligently follows the breadcrumbs left by those who came before Krista Marson has a unique voice and infectious curiosity Her words are often witty sometimes poignant and always brutally honest She's an author who lays herself bare and writes at her best whenever she feels vulnerable Her travel stories are highly imaginative and represent a new approach to the art of memoir writing Her tales are refreshingly uncommon for she visits tucked away places that few people ever travel This book

is an installment of the Memory Road Trip series an entertaining collection of travel stories that don't require reading in any particular order The author has traveled extensively and developed a unique perspective on the universal themes of life love and loneliness She's passionate about nature art ruins and how the past influences the modern age Her memoirs are not travel journals per se but rather visceral and introspective journeys to the mysterious self *Fire in America* Stephen J. Pyne, 2017-01-27 From prehistory to the present day conservation movement Pyne explores the efforts of successive American cultures to master wildfire and to use it to shape the landscape Nature's Economy Donald Worster, 1994-06-24 Nature's Economy is a wide ranging investigation of ecology's past first published in 1994 **For People and the Planet** Don E. Marietta, 1995 The prevailing view of nature has begun to move away from a traditionally Western humans apart from nature attitude toward one that sees humans as a part of nature Don E. Marietta describes these changes and what he perceives as a philosophical shift toward new holistic models of environmental ethics He supports a critical holism that stresses the moral importance of the interrelationship of human beings animals plants and non living things in their common dependence on the ecosphere Considering that this humanistic approach to ethics recognizes a shared responsibility to the whole system of nature Marietta explores the apparent conflict between environmental holism and the interests of individuals incorporating the perspectives of ecofeminism anthropocentrism contextualism and pluralism This approach produces an ecologically enlightened position that calls for a commitment to protecting planet Earth while recognizing that even though it may not be easy or simple we can live according to a humanistic and holistic ethic one which seeks the good for people and for the planet Author note Don E. Marietta Jr is Adelaide R. Snyder Distinguished Professor of Ethics and Professor of Philosophy at Florida Atlantic University **Sustainable Landscape Management** Ann Marie VanDerZanden, Thomas W. Cook, 2010-12-21 THE COMPLETE GUIDE TO THE SUSTAINABLE MANAGEMENT OF LANDSCAPES A must have guide for anyone working with landscapes Sustainable Landscape Management eases the transition of the landscape industry into a new era of green consciousness Filled with examples that illustrate best practices the book provides a practical framework for the development of sustainable management strategies from design to execution and eventually to maintenance in an effort to construct landscapes that function more efficiently and minimize the impact on the environment Sustainable Landscape Management includes An overview of sustainable design and construction techniques as the basis for the maintenance and management of constructed landscapes Coverage of ecosystem development managing landscape beds managing trees and shrubs and lawn care An entire chapter devoted to issues associated with the use of chemicals in landscape management Guidance on retrofitting existing landscapes for sustainability Reshaping the landscape takes on more significance as society embraces a new value system for advancing environmentally friendly ideals By following the management principles laid out in this book readers will learn the key elements for building landscapes that integrate beauty and function to create a sustainable presence that extends well into the future **Environmental Policy Law** Thomas J.

Schoenbaum, Ronald H. Rosenberg, Holly D. Doremus, 2002 Schoenbaum and Rosenberg's casebook provides detailed information on environmental policy law and the tools for fast easy on point research Part of the University Casebook Series it includes selected cases designed to illustrate the development of a body of law on a particular subject Text and explanatory materials designed for law study accompany the cases
