Sand To Spectacle The Dubai Mall:

Sand to Spectacle: the Dubai Mall Nartano Lim, Widari Bahrin, 2016-06 The architects of atelier Arcau are always sensitive to the elements of the contexts where they are called on to work This could be almost the firm's hallmark if it were visible but it is a quality that precedes all visibility The Dubai Mall Nartano Lim, Widari Bahrin, 2012 *Archinesia 03* Imelda Akmal, 2013-01-01 Does Architecture Shape the City or Vice Versa Architecture is a visual object that most strongly shape the face of any city And in this 3 volume Archinesia trying to discuss cities in their relation to architecture with seven urban experts to give an answer about the architecture of Jakarta Completed with written interview with Syed Sobri Zubir associate professor at Universiti Teknologi MARA UTM Malaysia to gain a clearer perspective of this edition's main topic Does Architecture Shape the City or Vice Versa Current Project From Southeast Asia Andra Matin DCM Jakarta Indra Tata Adilaras Wilkinson Eyre Architects DP Architects Ong Ong Singapore Bangkok Project Company Limited Openbox Thailand Vo Trong Nghia Vietnam a21 Studio Vietnam Moh Hack Partner Brunai **The Social Imperative** H. Koon Wee, 2021-07-21 This book contains multiple short critiques reflections and manifestos affording each contributing architect and intellectual the time and space to imagine new social paradigms in China Emerging from a tumultuous history of high culture and complex territorial conditions there is nothing straightforward about the social development of China The complexity of the social practices developed by architects and shapers of the built environment can be explained in part by the last three decades of an intensified adoption of the market economy by the Communist Party of China after an equally short three decades of closed door communist control There is no political meltdown like the democratization of the former Communist Bloc but there is a constant managing of discontent and resistance across China At the apex of the many creative and intellectual forces in China architects harbor and give form to many tactics of resistance Unfortunately architects are also the instruments and minds complicit with profit mongering developers and governments pursuing unchecked urbanization degradation of the environment exploitation of the marginalized and the creation of a very inequitable China This book begins with an introduction that defines the forms and tendencies of China's society as it stands today and it positions the work of a small number of architects and intellectuals who are at the forefront of reforming rethinking and even revolutionizing the Chinese society Beneath the veneer of a very successful China that the world readily acknowledges a quiet revolution is taking place within the realms of architecture and the city The social architectural and urban theories documented in this book are organized around the established canons of social actions from mobilizing laboring resisting and mediating to networking controlling rationalizing and aestheticizing This book aims to put the social agenda squarely back in the rapid development of the built environment in China This publication is the culmination of a three year study of social issues in the architecture and cities of China It involved visits to sites undergoing massive change discussions and debates among architects and critics reflections by practitioners about their own work and activists lobbying for social change

Consuming the Entrepreneurial City Anne Cronin, Kevin Hetherington, 2008-04-07 This collection offers a global perspective on the changing character of cities and the increasing importance that consumer culture plays in defining their symbolic economies Increasingly forms of spectacle have come to shape how cities are imagined and to influence their character and the practices through which we know them from advertising and the selling of real estate to youth cultural consumption practices and forms of entrepreneurship to the regeneration of urban areas under the guise of the heritage industry and the development of a WiFi landscape Using examples of cities such as New York Sydney Atlantic City Barcelona Rio de Janeiro Douala Liverpool San Juan Berlin and Harbin this book illustrates how image and practice have become entangled in the performance of the symbolic economy It also argues that it is not just how the urban present is being shaped in this way that is significant to the development of cities but also that a prominent feature of their development has been the spectacular imagining of the past as heritage and through regeneration Yet the ghosts that this conjures up in practice offer us a possible form of political unsettlement and alternative ways of viewing cities that is only just beginning to be explored Through this important collection by some of the leading analysts of consumption cities and space *Consuming the Entrepreneurial City* offers a cutting edge analysis of the ways in which cities are developing and the implications this has for their future It is essential reading for students of Urban Studies Geography Sociology Cultural Studies Heritage Studies and Anthropology
