EuroKarst 2016, Neuchâtel Philippe Renard, Catherine Bertrand, 2017-01-03 This book presents the latest advances in the field of karst hydrogeology and carbonate reservoirs. These include but are not limited to geomorphology of karst flow and solute transport in karst, innovative metrology modelling, speleogenesis and geology of carbonate reservoirs, deep reservoir exploration and production, water management and protection in karst environments, contaminant migration and chemical behavior, hydrochemistry and regional aquifer studies. EuroKarst offers a platform for professional exchanges between field practitioners and academic researchers. It is the European biennial conference on the hydrogeology of karst and carbonate reservoirs. It is organized every two years by the Universities of Neuchâtel, Switzerland, Besançon, France and Málaga, Spain.

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security, political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention of military veterans, looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Daily Graphic Ransford Tetteh, 2014-09-10 **Kanene** Sharon Sibanda, 2025-02-15 The Black SANDF soldiers' experiences are unique, shaped by the armed struggle, long and repeated deployments, constant threats and repeated exposure to the horrors of battle. Traumatized Black SANDF members' journeys reveal the profound impacts of combat trauma, often echoing the symptoms of PTSD, characterized by an ongoing sense of danger and a fractured sense of self. The interpretation of these soldiers' lived realities interconnects, creating an intricate pattern of grief and resilience stitched into the camouflage fabric of their military and psychological reality. In the crucible of their pain, they find solace in shared silence, their sacred cries resounding through history's corridors. We witness their raw truths as we navigate the shadows of their combat experiences. The legacy of fallen and surviving soldiers, etched in blood and sacrifice, honours the unyielding spirit of the human soul dedicated to the nation's greater good. These lived stories privilege us with an honoured glimpse into the psyche of serving force members haunted by our past and continuous military engagements. These soldiers' stories forge a

collective narrative of resilience highlighting their enduring spirit in the face of trauma and adversity within an integrated SANDF Kanene armed with these soldiers self insights emerges as the guiding light navigating through the dark psychological recesses of lived trauma to bring hope and healing to those who have served and continue to serve their country *Dynamic Soil-Structure Interaction for Sustainable Infrastructures* Deepankar Choudhury, Khalid M.

El-Zahaby, Izzat Idriss, 2018-10-27 This volume focuses on the role of soil structure interaction and soil dynamics. It discusses case studies as well as physical and numerical models of geo structures. It covers Soil Structure Interaction under static and dynamic loads, dynamic behavior of soils and soil liquefaction. It is hoped that this volume will contribute to further advance the state of the art for the next generation infrastructure as a key to creating a sustainable community affecting our future well being as well as the economic climate. The volume is based on the best contributions to the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures Egypt 2018. The official international congress of the Soil Structure Interaction Group in Egypt SSIGE. *The Changing Face of Land and Conservation in Post-colonial Africa* George Barrett, Shirley Brooks, Jenny Josefsson, Nqobile Zulu, 2016-03-22 The year 2013 marked the 100th anniversary of the 1913 Land Act in South Africa which legalised the violent dispossession and alienation of the African majority from the land. It is common cause that the alienation of land for conservation purposes introduced to Africa under colonial rule has continued more or less uninterrupted until today. However while nature conservation practices inevitably raise challenging questions relating to land and land use there has thus far been little concentrated effort to bring together scholars working on the land question particularly around issues of land tenure with those whose work focuses on questions of nature conservation and the social impacts of conservation in an African context. Compiled from research presented at a ground breaking interdisciplinary conference held at Rhodes University in Grahamstown South Africa in 2012 the chapters in this book made their first appearance in a special issue of the Journal of Contemporary African Studies JCAS in July 2013. The book brings critical interdisciplinary analyses of the complex interrelations between contemporary neoliberal conservation practices in post colonial Africa into conversation with the well trodden territory of land use and contested land issues on the continent. Anchored by an intellectual curiosity about the extent to which past practices continue into the present and with what consequences the book provides fresh insights into the complex relationship between land and conservation in contemporary Africa. *Rogue* Johann van Loggerenberg, Adrian Lackay, 2016-09-19 The story of a rogue unit operating within the South African Revenue Service SARS became entrenched in the public mind following a succession of sensational reports published by the Sunday Times in 2014. The unit the reports claimed had carried out a series of illegal spook operations they had spied on President Jacob Zuma run a brothel illegally bought spyware and entered into unlawful tax settlements. In a plot of Machiavellian proportions head of the elite crime busting unit Johann van Loggerenberg and many of SARS's top management were forced to resign. Van Loggerenberg's select team of investigators with their impeccable track record of

busting high level financial fraudsters and nailing tax criminals lost not only their careers but also their reputations Now in this extraordinary account they finally get to put the record straight and the rumours to rest there was no rogue unit The public had been deceived seemingly by powers conspiring to capture SARS for their own ends Shooting down the allegations he has faced one by one Van Loggerenberg tells the story of what really happened inside SARS revealing details of some of the unit's actual investigations
