Journal of the Royal Naval Medical Service ,1995 **Surviving on the Move** Jonathan Crush,Bruce Frayne,2010-02-01 Since the collapse of apartheid there have been major increases in migration flows within to and from the Southern African region Cross border movements are at an all time high across the region and internal migration is at record levels The implications of greater mobility for areas of origin and destination have not been systematically explored Migration is most often seen as a negative phenomenon a result of increased poverty and the failure of development More recently the positive relationship between migration and development has been emphasised by agencies such as the Global Commission on International Migration the Global Forum on Migration and Development the United Nations Development Programme and the African Union The chapters in this publication are all based on primary research and examine various facets of the relationship between migration poverty and development including issues that are often ignored in the migration development debate like migration and food security and migration and vulnerability to HIV The book argues that the development and poverty reduction potential of migration is being hindered by national policies that fail to recognise and build on the positive aspects and potential of migration As a result as these studies show migrants are often pushed to the margins where they are forced to survive on the move Their treatment violates labour laws and basic human rights and compromises the potential of migration as a means to create sustainable livelihoods reduce poverty and food insecurity mitigate the brain drain and promote the productive use of remittances This book shows that migrant lives and livelihoods should be at the centre of international and African debates about migration poverty and development *Defense & Foreign Affairs Handbook* ,1999 **All About South Africa** Rob Marsh,2013-07-22 All About South Africa is a comprehensive reference book for all South African children with enquiring minds and a lively interest in the world around them Packed with colourful photographs and illustrations the simple and thematically presented text is both easy to read and to understand This fascinating introduction to our country looks at life in southern Africa long long ago and explores the culture of our land and the people who helped shape our unique South African community It provides an intriguing insight into the ever changing world of science and technology and our sometimes puzzling economy This valuable reference work also introduces young readers to our equally important natural heritage the coasts mountains and climate of the land and the country s rich variety of wildlife Now in it s 7th print edition and fully updated this well researched and visually stimulating volume offers all this information and much much more Complemented by lists of recommended place to see All About South Africa is an essential addition to the bookshelf of every South African child *Area Handbook Series* ,1997 **Salut** ,1994 *Annual Report* South Africa. People's War is an unprecedented panoramic history of the citizen armies of the United Kingdom Australia Canada India New Zealand and South Africa the core of the British and Commonwealth armies in the Second World War Drawing on new sources to reveal the true wartime experience of the ordinary rank and file Jonathan Fennell fundamentally challenges our understanding of the War and of the relationship between conflict and socio political change He uncovers how fractures on the home front had profound implications for the performance of the British and Commonwealth armies and he traces how soldiers political beliefs many of which emerged as a consequence of their combat experience proved instrumental to the socio political changes of the postwar era Fighting the People's War transforms our understanding of how the great battles were won and lost as well as how the postwar societies were forged

An Ambulance of the Wrong Colour Laurel Baldwin-Ragaven, Leslie London, Jeanelle De Gruchy, 1999 A study on the ethical problems afflicting the health sector this work catalogues through numerous cases the misconduct of health professionals with regard to civilians prisoners and military personnel documents the misuse of scientific research health professional and training institutions and statutory councils for apartheid purposes observes the failings of a profession trying to provide health care in the absence of a culture of human rights and identifies ways in which human rights and ethical dilemmas recur in the current context of democratic transformation

The Changing Face of Land and Conservation in Post-colonial Africa George Barrett, Shirley Brooks, Jenny Josefsson, Ngobile Zulu, 2016-03-22 The year 2013 marked the 100th anniversary of the 1913 Land Act in South Africa which legalised the violent dispossession and alienation of the African majority from the land It is common cause that the alienation of land for conservation purposes introduced to Africa under colonial rule has continued more or less uninterrupted until today However while nature conservation practices inevitably raise challenging questions relating to land and land use there has thus far been little concentrated effort to bring together scholars working on the land question particularly around issues of land tenure with those whose work focuses on questions of nature construction and the social impacts of conservation in an African context Compiled from research presented at a ground breaking interdisciplinary conference held at Rhodes University in Grahamstown South Africa in 2012 the chapters in this book made their first appearance in a special issue of the Journal of Contemporary African Studies JCAS in July 2013 The book brings critical interdisciplinary analyses of the complex interrelations between contemporary neoliberal conservation practices in post colonial Africa into conversation with the well trodden territory of land use and contested land issues on the continent Anchored by an intellectual curiosity about the extent to which past practices continue into the present and with

what consequences the book provides fresh insights into the complex relationship between land and conservation in contemporary Africa

Social work in the 21st century (Prof.) Mogomme A. Masoga, Allucia L. Shokane, Annaline Keet, Varoshini Nadesan, 2024-12-30 This scholarly book *Social work in the 21st century: Scholarship and praxis reimagined towards vulnerability* is the third volume in the *Knowledge Pathing: Multi-Inter and Trans-Disciplining in Social Sciences* book series. Chapters were invited from contributing authors who are involved in social work practice and education and who are dealing with the issues of poverty, inequality and vulnerability in these fields. The focus of the book emanates from the main conference theme and sub-themes of the ASASWEI Association of South African Social Work Education Institutions conference held in 2021. The theme of the conference: *Pandemics, poverty, inequality and disability: Social work in the 21st century* provided an opportunity for deep deliberation, knowledge exchange and skills development on how vulnerable communities already on the economic margins of society due to poverty and inequality are further marginalised during significant societal disruptions such as the coronavirus 2019 COVID-19 pandemic. It is these deliberations which culminated in this book. Drawing on the papers presented, the chapters promote knowledge and skills around vulnerabilities in our social context and how the social work profession is challenged to interrogate its role in addressing the persistent challenges of poverty and inequality that keep people on the peripheries of human development. The target audience for this book is primarily academics engaged in the field of social work and related fields.
