Retro Camera Buying Guide & How to Pack a Gadget Bag Shawn M. Tomlinson, 2015-07-03 Photographer and writer Shawn M Tomlinson author of the Photo Curmudgeon column and books gives the budding photographer an inexpensive way to move into serious photography with good equipment Tomlinson considers the financial restrictions of novice photographers in this how-to book that gives detailed step-by-step help He illustrates his points with many photographs shot with the cameras he recommends As a bonus this book also contains Volume 2 of the Shawn M Tomlinson's Guide to Photography series How to Pack a Camera Gadget Bag

Vol. 26: Medium-Format Photography: Getting Started Shawn M. Tomlinson, 2018-12-14

Simply put medium format photography is quite a bit more complex than shooting with 35mm film SLRs or 35mm style DSLRs. It takes a bit more skill and experience to handle medium format cameras. Not only do you need to learn to think differently about how you shoot but you also have a whole new type of equipment to learn. Medium format cameras produce bigger images which allows for more detail and greater enlargement. And because they in general were designed for professional photographers the lenses tend to be of better quality than most 35mm lenses which also adds to the detail in the images. In this book we'll take a look at medium format SLRs and TLRs and we'll even touch upon some other types. We'll also consider a few lenses although these largely are a matter of choice. And there are far fewer choices for medium format cameras than for other types. Time to do some weight training and heft those medium format cameras and lenses into position. Let's go.

American Photo, 2004-07 **Photography: Choosing Your Film SLR** Shawn M. Tomlinson, 2018-02-22 Film cameras the bodies themselves have little to do with image quality. Lenses are far more important to image quality than camera bodies. So as long as your camera has accurate shutter speeds aperture settings and metering the brand you pick doesn't really have much of an effect upon the final image. So then it appears the model camera you choose is irrelevant. Well no. The type of film SLR camera you choose is most important to you as the photographer in features and convenience. Comfort has a lot to do with how good you are as a photographer. What

I mean by that is that you choose a camera that feels comfortable in your hands and becomes an extension of your brain as a photographer This makes it easier to capture the types of images you want **Time Book 6: Ice Time** Shawn M.

Cover Art Shawn M. Tomlinson,2018-12-16 It has been a long strange road and probably has no end clearly in sight Many more books are in the works as I write this in early December 2018 For example I have published nine novels to date and am writing nine more with plans for some beyond that The Shawn M Tomlinson s Guide to Photography series has 29 titles in print with another five or six nearly complete and plans for 30 to 40 more I m also trying to rework and rearrange those books into omnibus editions by chronology and by theme I never will get every book done I want to do but it keeps me busy I always planned on putting out a catalog of all the Zirlinson Books but kept getting waylaid for one reason or another until now This catalog is available as a print book in color The color print book will be cost prohibitive for many people so there likely will be a black and white version available too **Beginners Guide to Night Photography** Steve
