All About South Africa Rob Marsh, 2013-07-22. All About South Africa is a comprehensive reference book for all South African children with enquiring minds and a lively interest in the world around them. Packed with colourful photographs and illustrations, the simple and thematically presented text is both easy to read and to understand. This fascinating introduction to our country looks at life in southern Africa long ago and explores the culture of our land and the people who helped shape our unique South African community. It provides an intriguing insight into the ever-changing world of science and technology and our sometimes puzzling economy. This valuable reference work also introduces young readers to our equally important natural heritage: the coasts, mountains and climate of the land and the country's rich variety of wildlife. Now in its 7th print edition and fully updated, this well-researched and visually stimulating volume offers all this information and much much more. Complemented by lists of recommended places to see, All About South Africa is an essential addition to the bookshelf of every South African child.

The Birth of a New South Africa T. R. H. Davenport, 1998-01-01. Davenport describes the changes that took place leading to the end of apartheid, the process of reconciliation among the various elements of South African society and discusses the country's peace-making and constitution-building efforts.

Defensive Restructuring of the Armed Forces in Southern Africa Bjørn Møller, Gavin Cawthra, 2019-01-15. Published in 1997, the work explores the reorientation of security policies and the accompanying restructuring of the armed forces going on in Southern Africa under entirely new circumstances. Democracy has come to South Africa; the civil wars in Angola and Mozambique have ended and the region is establishing a regional framework for cooperation. While covering the entire region, a special focus is placed on South Africa, which is predestined to play a leading role but which is struggling with the legacy of the apartheid regime and its repeated aggressions against neighbouring states. A defensive restructuring of the South African military is an element in the building of mutual trust. The implications of such defensive restructuring to a non-offensive defence are described in detail. In addition to the analytical contribution, the work also contains central documents and a bibliography.

The Economics of Defense Industry Thomas-Durell Young, 2023-10-17. This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive, technologically advanced and that requires a highly skilled labour force. Since the end of the cold war, Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation. In all cases, government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand. The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions. Efforts to increase industrial capacity have been met with the

iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis

South Africa Survey 2001/2002 South African Institute of Race Relations, 2001 South African Survey 2001 2002 South African Institute of Race Relations

The Transition to Democratic Governance in Africa John Mukum Mbaku Esq., Julius O. Ihonvbere, 2003-04-30 Africa is currently experiencing sociopolitical and economic changes of unprecedented proportions New leaders institutions discourses and methods of political organization and action are shaping a new future Through a case study approach this essay collection provides a comprehensive analysis of the history trajectory actors institutions contradictions failures and opportunities in contemporary efforts at democratization in Africa While presenting the dynamics of democracy and democratization in several African countries they also look at critical issues in Africa s transition projects from political parties and elections through constitutions and constitutionalism to new structures of power and politics A provocative analysis for scholars students researchers and policy makers involved with African political and economic development

Post-conflict Reconstruction and Development in Africa Theo Neethling, Heidi Hudson, 2013-10-01 Some of the bloodiest conflicts occur on the African continent An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post conflict peacebuilding The authors of this book consider the problems around the concept of post conflict and the blurring of military and civilian roles analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi The main context of the book however is the South African Army s strategy for PCRD in Africa which was developed with the African Union s 2006 Post Conflict Reconstruction and Development Needs Assessment Guide in mind This book emanates from this plan It therefore also explores South Africa s policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an instruction manual it hopes to ignite an understanding of the particular processes required to develop a sustainable and cohesive post conflict peacebuilding strategy within the African environment

The Unspoken Alliance Sasha Polakow-Suransky, 2011-06-14 Prior to the Six Day War Israel was a darling of the international left vocally opposed to apartheid and devoted to building alliances with black leaders in newly independent African nations South Africa for its part was controlled by a regime of Afrikaner nationalists who had enthusiastically supported Hitler during World War II But after Israel s occupation of Palestinian territories in 1967 the country found itself estranged from former allies and threatened anew by old enemies As both states became international pariahs a covert and lucrative military relationship blossomed between these seemingly unlikely allies Based on extensive archival research and exclusive interviews with former generals

and high level government officials in both countries The Unspoken Alliance tells a troubling story of Cold War paranoia moral compromises and startling secrets Landmine Monitor Report 2000 ,2000 East Timor Taiwan **Politeia** ,1997 English and Afrikaans with abstracts in English Peacekeeping in Africa Marco Jowell,2018-02-21 In recent decades African states have developed an impressive infrastructure for training their peacekeepers In addition peacekeeping peacebuilding and associated areas of conflict resolution have become significant areas of employment Marco Jowell has spent a decade working in peacekeeping training in East Africa initially as one of the foreign Technical Advisers at the Peace Support Operations PSO training centre in Kenya the International Peace Support Training Centre IPSTC and subsequently as a strategic adviser to the Rwanda Peace Academy Using first hand experience he considers how military forces from a variety of African states with great differences in history language and political systems and with militaries with different cultures and capabilities can conduct complicated multinational peacekeeping operations He shows how regional peacekeeping training centres provide an environment for African elites predominately military to interact with each other through shared training and experiences This process of interaction or socialisation improves skills but also encourages cohesion so that future African led missions will be managed by well trained officers who are comfortable and willing to work within a regional or Pan African framework Jowell shows that part of the aim of peacekeeping training centres is to foster a Pan African outward looking ideology or disposition as well as improving technical ability This book will be essential reading for all involved with African military and security studies and analysts of peacekeeping training and operations *Guerrillas and Combative Mothers* Siphokazi Magadla,2023-12-01 *Guerrillas and Combative Mothers* is a narrative of women participating in the armed struggle against apartheid from 1961 to 1994 and their lives in a democratic South Africa Focusing on their agency commitment beliefs and actions it describes how women got politicised and the decisions and circumstances that led them to join the armed struggle in South Africa and exile Siphokazi Magadla discusses the forms of military training they received the combat activities and their transformation as women and soldiers Magadla also talks about their participation in the South African National Defence Force led demobilisation process and their contributions to the democratic transformation of the SANDF By illuminating the different eras and arenas of their participation this book shows the broadness of the armed struggle against apartheid as a historical truth and as a matter of gender equality and justice for an inclusive and more democratic future *Foreign Policy in Post-Apartheid South Africa* Adekeye Adebajo,Kudrat Virk,2017-12-18 South Africa is the most industrialized power in Africa It was rated the continent s largest economy in 2016 and is the only African member of the G20 It is also the only strategic partner of the EU in Africa Yet despite being so strategically and economically significant there is little scholarship that focuses on South Africa as a regional hegemon This book provides the first comprehensive assessment of South Africa s post Apartheid foreign policy Over its 23 chapters and with contributions from established Africa Western Asian and American scholars as well as

diplomats and analysts the book examines the current pattern of the country's foreign relations in impressive detail. The geographic and thematic coverage is extensive including chapters on the domestic imperatives of South Africa's foreign policy, peace making, defence and security, bilateral relations in Southern Central West Eastern and North Africa, bilateral relations with the US, China, Britain, France and Japan, the country's key external multilateral relations with the UN, the BRICS economic grouping, the African Caribbean and Pacific Group, ACP as well as the EU and the World Trade Organization, WTO. An essential resource for researchers, the book will be relevant to the fields of area studies, foreign policy, history, international relations, international law, security studies, political economy and development studies.

The Devil In The Detail Paul Holden, Hennie van Vuuren, 2011-11-02. The South African Arms Deal was never a single event. Rather it was and still is a series of scandals and outrages all contributing towards a dubious momentum that takes South Africa further away from transparent democratic practice. The Devil in the Detail, written by two of South Africa's leading researchers on the subject, takes the reader on a journey of insight. Witness at close hand the breaking open of State secrets with tales of outrageous personal enrichment. Explore how the Arms Deal emerged out of the criminal networks of both the old SADF and the ANC's security apparatus, raising questions as to whether South Africa's remarkable transition was not oiled at key points by criminal intent and collusion. Follow the trail of the various offset deals done after the Arms Deal, cumulatively worth just as much as and discover that corruption continues to impact on defence spending in South Africa. Examine the economics and witness how the Arms Deal was not only economically irrational but virtually suicidal, almost single handedly derailing the post apartheid economic project. Finally read about the rise of the shadow state, the politicisation of prosecutions and the rise of the spooks. The remarkable conclusion of this landmark study is that years after the deal took place, the forces that drove its decisions have only grown in strength, further blighting South Africa's prospects for a future in which all may have a share.

Aspects of Peacekeeping Stuart Gordon, Francis Toase, 2014-05-22. The nature of UN operational involvement in the practical management of conflict has evolved dramatically since the end of the Cold War. The post Cold War liberation of the Security Council, the subsequent paralysis in its decision making competence and the apparent dilution of the concept of sovereignty as a prohibition on intervention have been principal factors in the evolving fortunes of UK peace support operations. This evolving environment has had profound implications for the way in which the humanitarian community, the United Nations and military forces engaged under a UN flag have reacted to peace support operations. This book explores contemporary peace support operations and examines many of the principal challenges that now confront those charged in different ways with bringing peace to war torn societies. In particular, this volume looks at the evolving nature of military UN and humanitarian non governmental organization's intervention in these complex conflicts. It also explores how these organizations relate to one another and the way in which a division of labour is determined.

African Armed Forces Journal, 2005-02 **The Routledge Handbook of Civil-military Relations** Thomas C. Bruneau, Florina Cristiana Matei, 2013

The Routledge Handbook of Civil Military Relations not only fills this important lacuna but offers an up to date comparative analysis which identifies three essential components in civil military relations 1 democratic civilian control 2 operational effectiveness and 3 the efficiency of the security institutions This Handbook will be essential reading for students and practitioners in the fields of civil military relations
