Activated Script Analysis Elizabeth Brendel Horn, 2023-05-02 *Activated Script Analysis* engages theatre students in traditional formative script analysis through a fusion of devised theatre and various modes of creative expression dispelling the notion of script analysis as an isolated pen to paper task and reimagining it as a captivating and collaborative process. This book uses diverse contemporary plays to model the script analysis process for each of four Theatrical Elements: Given Circumstances, Character, Setting, and Structure. By considering each of these elements, readers can uncover patterns and themes within a dramatic text. Woven throughout the study of each theatrical element are Connections: Personal Connections, which encourage readers to explore a theatrical element within their own lives as though their lives were a script; Play Connections, which make abstract ideas presented in script analysis concrete through theatre-based play; Professional Connections, which examine how a theatre professional might analyze a script within their own work; and Performative Connections, which provide the opportunity for students to explore a theatrical element through performance using devised theatre strategies. At the end of each chapter, readers are given the opportunity to analyze a text through the lens of a Theatrical Element and to express their findings through a variety of digital, written, visual, and performance-based modes of expression. *Activated Script Analysis* is designed for undergraduate theatre students and educators to be used as the primary text in Script Analysis coursework or as a supplemental text in Acting or Directing courses. The book includes access to downloadable templates and example videos available at www.routledge.com/9781032125398. Going Virtual Sarah Ostman, 2021-04-07 From the moment the pandemic took hold in Spring 2020, libraries and library workers have demonstrated their fortitude and flexibility by adapting to physical closures, social distancing guidelines, and a host of other challenges. Despite the obstacles, they've been able to stay connected to their communities and helped connect the people in their communities to each other as well as to the information and services they need and enjoy. Ostman and ALA's Public Programs Office (PPO) here present a handpicked cross-section of successful programs, most of them virtual, from a range of different libraries. Featuring events designed to support learning, spark conversation, create connection, or simply entertain, the ideas here will inspire programming staff to try similar offerings at their own libraries. Showcasing innovation in action, as well as lessons learned, programs include: COVID-19 Misinformation Challenge featuring an email quiz to encourage participants to separate fact from fiction; weekly virtual storytimes; community cooking demonstrations via Zoom; an online grocery store tour complete with tips about shopping healthy on a budget; a virtual beer tasting that boasted 80 attendees; socially distanced creativity crates for summer reading; an online Minecraft club for kids ages 6 and up; a Zoom presentation about grieving and funerals during COVID featuring the director of a local funeral home; Art Talk Tuesday, a one-hour docent-led program; a virtual lecture on the history of witchcraft presented by a public library in partnership with a university rare book room that drew thousands of viewers; knitting for knewbies kits for curbside pickup; Songs from the Stacks, an ongoing

virtual concert series in the style of NPR's Tiny Desk a pink supermoon viewing party that included people howling at the moon together from their homes on Facebook Live and many others
