Q. Sexual abuse of children today has become one of the most pervasive social problems faced by Indian society, especially in urban areas. Its impact is profound because of the sheer frequency with which it occurs and because of the trauma brought to the lives of the children who have experienced this crime.

Even though most of these crimes happen randomly and are distinct from each other, there are certain commonalities. Most abused children belong to poor families who live in slums. Families of abused children and also the culprits are largely people who have migrated to the cities for better job opportunities. Analyze the problem and explain:

- What behavioural problems migrants face when they come to city and how these problems lead to anti-social behaviour?
- What steps can be taken to increase the respect of law among people and stop this heinous crime against children. (20m) (250 words).

Ans:- People migrate to cities in search of better job opportunities and aspiration of better standards of life. But, most of them end up living in slums. The slums are the underbelly of the cities, which provide an ideal ground for breeding of crime.
