Tradition Orale De Lauvergne:

Littérature orale de l'Auvergne Paul Sébillot, 1898 Monsters of the Gévaudan Jay M. Smith, 2011-03-15 In 1764 a peasant girl was killed and partially eaten while tending sheep Eventually over a hundred victims fell prey to a mysterious creature whose deadly efficiency mesmerized Europe Monsters of the Gévaudan revisits this spellbinding tale and offers the definitive explanation for its mythic status in French folklore *Body and Tradition in Nineteenth-Century France* William G. Pooley, 2019-12-05 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe *Body and Tradition in Nineteenth Century France* explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of Félix Arnaudin 1844-1921 The study places the songs stories and everyday speech that Arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe

The Secret History of Poltergeists and Haunted Houses Claude Lecouteux, 2012-04-26 What poltergeist accounts through the ages reveal about our own worldviews Provides a wide array of case studies from ancient Greece and Rome to medieval Europe to the modern world Explores the relationship between poltergeists and troubled adolescence Looks beneath the Christian adulteration of pagan practices to reveal the hidden ancestral beliefs tied to poltergeists and haunted houses Stories of poltergeists and their mischievous and sometimes violent actions knocking stone or chair throwing moving objects with invisible hands and slamming or opening doors are a constant through the ages What changes is how we interpret this activity For our pagan ancestors this phenomenon was caused by helper spirits whose manifestations revealed their unhappiness with a household The medieval Christian church demonized these once helpful spirits and held exorcisms to expel them from the houses they haunted which proved effective less than half the time The Age of Enlightenment cast these incidents as clever hoaxes and many still believe this today But poltergeist manifestations continue to appear and often defy attempts to debunk them as pranks What then is behind this phenomenon Exploring accounts of poltergeists from ancient Greece and Rome medieval Europe and the modern world Claude Lecouteux finds that while our interpretations of

poltergeists may change the manifestations always follow a similar course and evolution He shows how modern scientific studies of poltergeist manifestations have found a strong tie between these visitations and the presence of a troubled adolescent in the house Looking beneath the Christian adulteration of pagan practices to reveal the hidden ancestral beliefs tied to poltergeists and haunted houses the author shows how these unhappy spirits serve as confirmation of the supernatural beings that share the earth with us and of our relationship with the natural and unseen world a relationship we must take care to keep in balance

Woodrow Hassell, 2014-07-03 Among the more interesting incunabula preserved in the Salle de la Réserve of the Bibliothèque Nationale in Paris are the apparently unique copies of two editions very similar in content of a work entitled Les Adevineaux

amoureux In much more comprehensive form Les Adevineaux amoureux is preserved in a manuscript belonging to the Mus e Conde at Chantilly All three texts in medieval French appear to date from the 1470s The present work Amorous Games is a critical edition of Les Adevineaux amoureux Amorous Games is a miscellany whose principal unifying force is the compiler s aim to provide a manual of conversation and entertainment for polite society Included are series of questions and answers belonging to the well established medieval tradition of the Demandes amoureuses a very large number of riddles mainly folk riddles and venditions en amours little poems that apparently came into being as part of a social game Students of medieval French literature particularly those with a penchant for some of the minor genres will find new material in the Amorous Games Folklorists will discover what is probably the largest collection of riddles bequeathed to us by medieval France and also much that is of value to specialists in the proverb and folk tale For this critical edition of Les Adevineaux amoureux Professor Hassell has selected the Chantilly manuscript because it is the most complete and also because it had not yet been published The Appendix contains the text of the more complete of the two incunabula and the significant variants appearing in the other fifteenth century printed edition The manuscript text has been collated with that of the incunabula and copious notes and an index to the riddles have been supplied In his introduction Professor Hassell discusses in detail the major classes and subclasses of the riddle drawing on the work of Petsch Taylor Abrahams and other scholars of the genre
